We have completed the June 2009 report of the results of our Computer-Assisted Audit Techniques (CAAT). The final report is attached for your information. Recoveries to date from duplicate vendor payments are **\$793,358**.

Each month I submit an Audit Status Report to the Board of Supervisors (BOS) where I detail any material and significant audit issues released in reports during the prior month and the implementation status of audit recommendations as disclosed by our Follow-Up Audits. Accordingly, the results of this audit will be included in a future status report to the BOS.

As always, the Internal Audit Department is available to partner with your staff so that they can successfully implement or mitigate difficult audit recommendations. Please feel free to call me should you wish to discuss any aspect of our audit report.

Audit No. 2844-L

June 30, 2009

- TO: David Sundstrom, Auditor-Controller Carl Crown, Director, Human Resources Department Ronald C. Vienna, County Purchasing Agent, County Procurement Office
- FROM: Dr. Peter Hughes, CPA County Internal Auditor
- SUBJECT: Monthly Performance Report of CAATS: Auditor-Controller, Human Resources, & CEO/Purchasing - Duplicate Vendor Payments and Other Periodic Routines

OBJECTIVES

Each month, the Internal Audit Department conducts a variety of performance reviews of vendor payment and payroll activity utilizing Computer-Assisted Audit Techniques (known by the acronym CAAT). Our objectives are to analyze the selected vendor payment and payroll data to identify:

- 1. **Duplicate Payments:** Duplicate payments made to vendors. This CAAT is performed monthly.
- Employee Vendor Match: Employees that bought goods or issued contracts to themselves or a related vendor. This CAAT is performed periodically as needed.
- 3. **Retiree/Extra Help Hours:** Retirees working as extra help in excess of mandated hour limits. This CAAT is performed annually.
- 4. **Deleted Vendors:** Active vendors deleted from the Vendor Master Table which could be an indicator of inappropriate payments. This CAAT is performed monthly.
- 5. **Direct Deposits:** Multiple employee paychecks directly deposited to the same bank account which could be an indicator of inappropriate payments. This CAAT is performed monthly.

BACKGROUND

CAATs are automated queries applied to large amounts of electronic data searching for specified characteristics. We use a proprietary, best practices and industry recognized software product to help us in this process.

Audit Highlight

We analyzed 12,364 vendor invoices paid in May 2009 amounting to about \$75 million and found 100% of the invoices were only paid once.

Of the \$75 million vendor invoices, we identified no potential duplicate payments made to vendors.

To date we have identified \$811,418 in duplicate vendor payments, of which **\$793,358** has been recovered.

CAATs differ from our traditional audits in that CAATs can query **100%** of a data universe whereas the traditional audits typically test but a **sample** of transactions from the population.

Resulting exceptions or findings are forwarded to the appropriate department for validation and/or resolution. Depending on the department's review, the exceptions may or may not be a finding.

Often there is additional data needed to validate the exception that is only known at the department level. We also partner with the departments to identify internal control enhancements with the purpose of preventing future occurrences of the type of findings identified by the CAATs.

We are keeping the details of our process and the vulnerabilities identified to a general discussion because of the risks associated with disclosing specific details of our financial and accounting processes.

SCOPE

This report details the CAAT work we performed in June 2009. Our analysis included a review of the following data:

- 1. **Duplicate Payments:** 12,364 vendor invoices totaling \$74,991,611 potential duplicate payments.
- 2. **Employee Vendor Match:** Employee and vendor addresses from 1/1/05 to 6/30/08 for potential conflicts of interest.
- 3. **Retiree/Extra Help Hours:** Retiree/extra help hours worked as of 6/15/09 for individuals exceeding annual limits.
- 4. **Deleted Vendors:** 105,076 vendors as of 6/3/09 in the Vendor Master Table for suspicious vendor payment activity.
- 5. **Direct Deposits:** 57,642 payroll direct deposit transactions processed for pay periods 9 (4/10/09 4/23/09) and 10 (4/24/09 5/7/09) and 11 (5/8/09 5/21/09) for suspicious direct deposit activity.

RESULTS

For the month of June 2009, we found the following:

Objective #1 - Duplicate Payments:

We identified no duplicate payments made to vendors of the **\$75 million** of vendor invoices processed during May 2009.

Value-added Information

Based on the to-date recoveries of **\$793,358** from the duplicate vendor payment routine, these computer assisted routines have paid for themselves and are returning monies to the County that may otherwise be lost. To date, we have issued 85 monthly performance reports for the CAATs.

County Internal Auditor's Report

Objective #2 – Employee Vendor Match:

In March 2009, we identified **23** potential employee/vendor matches and have submitted them to Human Resources (HR) for further evaluation. As of 6/10/09, HR determined that 1 was not a valid match and 6 were not a conflict. Their review is in process for the remaining 16 matches.

Objective #3 – Retiree/Extra Help Hours:

As of 6/15/09, **four (4)** working retirees have exceeded the annual limits. The excess hours ranged from 3 hours to 16.5 hours, which is less than 1 pay period.

Objective #4 - Deleted Vendors: Analysis performed with no findings noted.

Objective #5 – Direct Deposits: Analysis performed with no findings noted.

See the Detailed Results section for further information.

1. Duplicate Payments (Objective #1)

We used a CAAT routine to identify potential duplicate payments made to vendors during May 2009.

A. Results

We identified no duplicate payments out of the \$75 million of vendor invoices processed during May 2009. We have communicated the duplicate payment results to the Auditor-Controller. The Auditor-Controller continues to investigate all duplicate payments and is pursuing collection. Currently, the Auditor-Controller has a recovery rate of about 98% on these duplicate payments that we have brought to their attention since the inception of the CAAT routines.

The table below summarizes the duplicate payment activity to date:

B. Background

This CAAT routine concentrates on a sub-set of vendor invoices paid by the County that possesses certain common attributes. The sub-set excludes one-time payments (such as election worker pay, jury duty pay, etc.) as well as recurring payments (periodic payments to the same payee for the same amount such as welfare, family support, etc.).

During the month of June 2009, 12,364 invoices for \$74,991,611 were added to this data sub-set representing May 2009 transactions. Currently, the data sub-set includes 891,144 invoices totaling \$8,788,517,909.

The total data file from which the sub-set is derived includes 2,655,901 records totaling \$17,495,050,626.

Our prior research has indicated that the duplicate payments are typically caused by a compounded human clerical error.

2. Employee Vendor Match (Objective #2)

We used a CAAT routine to identify employees that share a similar address as a vendor. This may identify employees buying goods or issuing contracts to themselves or a related vendor.

Status:

This routine is performed periodically, as needed. We performed an analysis of employee and vendor addresses for the period 1/1/05 to 6/30/08. In March 2009, we identified 23 potential employee-vendor matches. Our results have been provided to the Human Resources Department (HR) for their evaluation as to whether any employee vendor conflicts exist in the matches identified. Their review is in process. The table below tracks the status of the potential employee-vendor matches submitted to HR for their review.

CAAT Report Month	Matches Submitted to HR	In Progress	Not a Valid Match	No Conflict Exists	No Conflict – Potential HR Policy Issue Resolved to HR's Satisfaction	Conflict – Issue Resolved to HR's Satisfaction
March 2009	23	16	1	6	0	0
TOTAL	23	16	1	6	0	0

3. Retiree/Extra Help Hours (Objective #3)

We performed an analysis of working retiree hours to identify retirees working as extra help in excess of mandated limits.

Our criteria are 960 hours (maximum allowed for regular retirees) or 720 hours (maximum for early retirees) during the fiscal year (FY).

Status:

This routine is performed annually. We are currently in the process of performing analysis of FY 08-09 working retiree hours. To date in FY 08-09, there have been approximately 212 working retirees. As of 6/15/09, **four (4)** individuals have exceeded the annual limits. The excess hours ranged from 3 hours to 16.5 hours, which is less than 1 pay period.

4. Deleted Vendors (Objective #4)

We used a CAAT to identify vendors that have been deleted or removed from the Vendor Master List. For deleted vendors, we verify that there has been no recent activity for that vendor.

Results:

This CAAT was applied in June 2009 with no significant findings.

5. Direct Deposits (Objective #5)

We used a CAAT to identify multiple employee paychecks directly deposited to the same bank account in the same pay period. We review results to determine there has been no irregular direct deposit activity.

Results:

This CAAT was applied in June 2009 with no significant findings.
