BONITA CANYON PUBLIC FACILITIES FINANCING AUTHORITY

OF ORANGE COUNTY

COSTA MESA, CALIFORNIA

(A Joint Powers Entity)

JUNE 30, 2014

GOVERNING BOARD

<u>MEMBER</u>	<u>PARTICIPANT</u>	<u>OFFICE</u>
Dr. Frederick Navarro	Newport-Mesa Unified School District	President
Mr. Dan Matusiewicz	City of Newport Beach	Member
Mr. Tim Marsh	Newport-Mesa Unified School District	Alternate
Mr. Steve Montano	City of Newport Beach	Alternate

ADMINISTRATION

Mr. Paul H. Reed

Secretary/Treasurer

ORGANIZATION

The Bonita Canyon Public Facilities Financing Authority was established December 9, 1997, under a joint powers agreement for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the special tax and the method of apportionment thereof. The Bonita Canyon Public Facilities Financing Authority consisted of the Irvine Unified School District, Newport-Mesa Unified School District, and the City of Newport Beach. On July 1, 1999, Irvine Unified School District withdrew from the Authority. On March 18, 1998, the Governing Board passed the Resolution of Formation to establish the Community Facilities Agency and called for an election for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the special tax and the method of apportionment thereof.

INDEPENDENT AUDITOR'S REPORT

Governing Board
Bonita Canyon Public Facilities Financing Authority
Costa Mesa, California

Report on the Financial Statements

We have audited the accompanying financial statements of Bonita Canyon Public Facilities Financing Authority (the Authority) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the State Controller's *Minimum Audit Requirements for California Special Districts*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Bonita Canyon Public Facilities Financing Authority as of June 30, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Bonita Canyon Public Facilities Financing Authority (the Authority) was formed on December 9, 1997, by a joint powers agreement among the following Orange County Government Agencies: Irvine Unified School District, Newport-Mesa Unified School District, and the City of Newport Beach. On July 1, 1999, Irvine Unified School District withdrew from the Authority. The purpose of the Authority is to finance the costs of certain school facilities, public parks and recreation facilities, and street improvements and facilities.

On March 18, 1998, the Governing Board passed the Resolution of Formation to establish the Community Facilities Agency and called an election for the purpose of approving the issuance of bonds for the financing of certain public improvements and the imposition of the Special Tax and the method of apportionment thereof. On March 18, 1998, qualified electors within the Community Facilities Agency, being The Irvine Company, voted to incur bonded indebtedness in the maximum aggregate principal amount of \$45,000,000 with interest at a rate or rates established at such time as the Bonds were sold in one or more series to finance the facilities, secured by a pledge of, and are payable solely from, the proceeds of the annually levied Special Tax. The Special Tax is levied and collected according to the rate and method of apportionment as described in the Resolution of Formation. A notice of Special Tax levy was recorded on April 1, 1998, with the County Recorder.

The Authority is governed by an appointed Governing Board. The Governing Board is comprised of two members selected by each participant agency. The Authority is fiscally responsible for its own operation, major financing arrangements, and contracts. Its significant accounting policies, as described below, are the same as for any independent Joint Powers Authority.

Description of Funds

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The Authority's funds are identified as governmental funds and fiduciary funds.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the Authority's governmental funds:

Capital Projects Fund The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

BONITA CANYON PUBLIC FACILITIES FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the Authority's own programs. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the Authority under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Authority's own programs. The Authority does not have any trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Authority's agency fund accounts for the receipt of special taxes and assessments used to pay principal and interest on related bonds with no Authority liability.

Basis of Accounting – Measurement Focus

Government-Wide Financial Statements The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, which is different from the manner in which governmental fund financial statements are prepared.

Since the Authority does not have program revenues, the financial Statement of Activities presents all revenues as general revenues. Expenses are reported on a functional basis.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Fund Financial Statements Fund financial statements report detailed information about the Authority. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The Authority only has one fund, of which is a major governmental fund.

Governmental Funds All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the financial statements because they do not represent resources of the Authority.

BONITA CANYON PUBLIC FACILITIES FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Revenues – Exchange and Non-Exchange Transactions On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 90 days. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the Authority receives value without directly giving equal value in return, include contributions from property owners. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Principal and interest on general long-term debt, which has not matured, are recognized when paid in the governmental funds.

Investments

Investments held at June 30, 2014, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost.

Fund Balances - Governmental Funds

As of June 30, 2014, the fund balance of the governmental fund is classified as follows:

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Authority considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Authority applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

BONITA CANYON PUBLIC FACILITIES FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Enabling legislation relates to laws passed that create revenue source to be used for specific purposes. The government-wide financial statements report net position restricted by enabling legislation of \$587.

Budgets and Budgetary Accounting

Annually, the Authority's Governing Board adopts an operating budget. The Board and Treasurer revise this budget during the year to give consideration to unanticipated revenues and expenses partially resulting from events unknown at the time of budget adoption.

Income Taxes

The Authority's income is exempt from Federal and State income taxes under *Internal Revenue Code* Section 115 and the corresponding section of the *California Revenue and Taxation Code*.

Use of Estimates

The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – INVESTMENTS

Policies and Practices

The Authority is authorized under *California Government Code* to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Specific Identification

Investment Type	Carrying Value	Fair Value	Average Maturity in Days
Dreyfus Institutional Reserve Money Fund	\$ 5,378,209	\$ 5,378,209	40

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Authority manages its exposure to interest rate risk by investing in short-term money market funds for cash flow requirements.

BONITA CANYON PUBLIC FACILITIES FINANCING AUTHORITY

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014**

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment in the Dreyfus Institutional Reserve Money Fund has been rated Aaa by Moody's Investment Services.

NOTE 3 – FUND BALANCES

Fund balances are composed of the following elements:

	Capital Projects Fund
Restricted	
Administrative expense	<u>\$ 587</u>

NOTE 4 – NON-OBLIGATORY DEBT

Summary

These bonds are authorized pursuant to the Mello-Roos Community Facilities Act of 1982 as amended, and are payable from special taxes levied on property within Community Facilities District No. 98-1 according to a methodology approved by the voters within the Authority. Neither the faith and credit nor taxing power of the Authority is pledged to the payment of the bonds. The Authority acts solely as an agent for those paying taxes levied. As a result, this debt is considered non-obligatory debt of the Authority. At June 30, 2014, Community Facilities District No. 98-1's Special Tax Bonds, Series 2012 had a remaining balance of \$36,355,000.
