INTRODUCTORY SECTION

PERMA
Public Entity Risk Management Authority

October 6, 2015

Members of the Board of Directors
Public Entity Risk Management Authority

Ladies and Gentlemen:

Attached is the Comprehensive Annual Financial Report of the Public Entity Risk Management Authority (PERMA) for your review and consideration. The Report is prepared by our staff, and PERMA takes full responsibility for the accuracy, completeness, disclosure, and fairness of the data presented. We believe the data, as presented, is materially accurate in all respects, and allows the reader to gain a maximum understanding of PERMA's financial picture.

James Marta & Company LLP has audited PERMA's financial statements. They concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that PERMA's financial statements for the fiscal year ended June 30, 2015 are fairly presented, and in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it.

A public agency since 1985

Profile

In 1985 a looming crisis in obtaining insurance coverage led a group of nine public agencies in the Coachella Valley to look at alternative ways to address the exposures common to their agencies. From that limited and experimental starting point Coachella Valley Joint Powers Insurance Authority (CVJPIA), a Joint Powers Authority (JPA), was formed subject to the provisions of the California Government Code to jointly develop and fund programs of insurance. In 1998, CVJPIA changed its name to PERMA.

Today, PERMA has 32 member agencies statewide: 22 cities, 7 special districts and 3 transit agencies. Members participate in some or all of PERMA's coverage and risk management programs at their discretion, and in conformance with PERMA's rules regulating participation. The primary purpose of PERMA, as a risk management authority, is to provide financial protection to its members when damage to their assets, or covered third party liability claims against them arise.

Assessing PERMA's Financial Condition

As a jointly owned and jointly governed organization, members have a direct stake in the efficient operation and financial performance of PERMA. Funding of the JPA is predominantly dependent upon claim activity. While insurance / reinsurance coverage is an important aspect of the JPA's cost structure, the pricing of such coverage is largely dependent upon prevailing market conditions. Risk control efforts and program administration costs comprise the third category of JPA expenses. Policies, procedures and day to day practices among members that are uniform and consistent greatly benefits PERMA and the membership as a whole. The greatest challenge of PERMA is to identify member risks at their source and develop risk control techniques to reduce or eliminate those risks.

Through long range planning and strong Board and Executive Committee participation, many new initiatives arise that when implemented benefit individual programs, members and PERMA as a whole. Examples include, access to web-based training, proactive risk control services, review and update of major program documents, and consideration of new programs and services. Effective management of a pooled insurance authority for the benefit of all concerned is both active and dynamic.

Internal Accounting Controls

PERMA's accounting system is organized so that each program can be accounted for and evaluated independently. Policy periods are also accounted for separately within each program. The assets, liabilities, revenues and expenses of each year are reported on a full accrual basis. All transactions are accounted for in a governmental enterprise fund.

PERMA management is responsible for establishing and maintaining internal controls designed to ensure that assets are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with general accepted accounting principles, and the activities and reporting of PERMA are in compliance with relevant laws and regulations. Internal accounting controls are designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires estimates and judgments by management.

All internal control decisions are made within the above guidelines. Management believes that PERMA's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Accreditation and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PERMA for its comprehensive annual financial report for the year ended June 30, 2014. This was the second time that PERMA has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

PERMA as a risk management authority is accredited with excellence, which is the highest level of accreditation, by the California Association of Joint Powers Authorities (CAJPA). Such accreditation validates the soundness of PERMA practices. The accreditation program was established as a model of professional standards which serve as a guideline for all risk management pools regardless of size, scope of operations, or membership structure. The accreditation was awarded for a three-year period ending November 18, 2018.

Our sincere appreciation is expressed to each Director and Alternate Director of the Board of Directors for their commitment to PERMA.

Respectfully submitted,

Scott Ellerbrock
General Manager

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Public Entity Risk Management Authority
Palm Desert, California

Report on the Financial Statements

We have audited the accompanying Statement of Net Position of Public Entity Risk Management Authority (PERMA) as of June 30, 2015 and 2014 and the related Statement of Revenues, Expenses and Changes in Net Position, Statement of Cash Flows and related notes to the financial statements for the years then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Public Entity Risk Management Authority, as of June 30, 2015 and 2014, and the respective changes in financial position, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, Schedule of Proportionate Share of the Net Pension Liability, Schedule of Pension Plan Contributions and Schedule of Funding Progress – Other Postemployment Benefits (OPEB) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financials statements of PERMA. The Reconciliation of Claims Liabilities by Type of Contract and Claims Development Information are not required parts of the basic financial statements but are supplementary information required by GASB. The Combining Schedule of Net Position, Combining Schedule of Revenues, Expenses and Changes in Net Position, Combining Schedule of Cash Flows, Member Deposits/Member Receivables and Estimated Outstanding Losses Within Member Retention are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Reconciliation of Claims Liabilities by Type of Contract, Claims Development Information Position, Combining Schedule of Net Position, Combining Schedule of Revenues, Expenses and Changes in Net Position, Combining Schedule of Cash Flows, Member Deposits/Member Receivables and Estimated Outstanding Losses Within Member Retention are fairly stated in all material respects in relation to the financial statements as a whole.

Change in Accounting Principle

Public Entity Risk Management Authority implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions,* which required a restatement of net position as of July 1, 2014. The effects of this restatement are described in Note 10 to the basic financial statements.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2015 on our consideration of Public Entity Risk Management Authority's internal control over financial reporting and our tests of its compliance with provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Public Entity Risk Management Authority's internal control over financial reporting and compliance.

<u>MANAGEMENT'S DISCUSSION AND ANALYSIS</u>

As management of Public Entity Risk Management Authority (PERMA), we offer readers of PERMA's financial statements this narrative overview and analysis of the financial activities of PERMA for the fiscal year ended June 30, 2015. Readers are encouraged to consider the information presented here in conjunction with the accompanying basic financial statements.

<u>Overview of PERMA</u>

Since November 1985, Public Entity Risk Management Authority (PERMA), a Joint Powers Authority (JPA), has provided financial protection to its membership which is comprised of 32 public agencies: 22 cities, 7 special districts and 3 transit agencies. PERMA operates risk management and coverage programs for the General Liability, Workers' Compensation, Employment Practices Liability, Crime, Cyber Liability and Property risks associated with member operations.

PERMA is governed by a Board of Directors comprised of representatives from each of its members. The Board of Directors elects a seven member Executive Committee, and the Executive Committee elects a President and Vice President. The Board and Committee oversee the operations of the JPA including rating, return of contributions, and loss control plans, as well as other activities in accordance with the JPA Agreement, Bylaws, and Board adopted policies and procedures.

PERMA's day-to-day operations are administered by the General Manager. The General Manager is responsible for implementing the organizations' objectives in accordance with the JPA's aforementioned organizational documents, and in accordance with direction provided by the Board of Directors, its Officers, and the Executive Committee.

<u>Financial Highlights for the Fiscal Year Ended June 30, 2015</u>

- Implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*. This resulted in a restatement of net position at beginning of the year (refer to Note 10) and recognizing net pension liability and deferred outflows/inflows of resources (refer to Note 6).
- Total operating revenues are $7.7 million, an increase of 6.8% or $492 thousand from the prior year.
- Total expenses are $7.8 million, an increase of 22.3% or $1.4 million over the prior year. The increase is attributable to the annual re-estimation of the unpaid claims and claim adjustment expenses.
- Total assets and deferred outflows of resources are $40.6 million, an increase of 5.8% or $2.2 million over the prior year. The increase is attributable to an increase in cash and investments.
- Total liabilities and deferred inflows of resources are $22.3 million, an increase of 13.1% or $2.6 million over the prior year. The increase is attributable to the increases in members' deposits of $971 thousand, unpaid claims and claim expenses of $1 million, and the newly recognized net pension liability of $542 thousand.
- Total net position is $18.3 million, a decrease of 1.9% or $362 thousand from the prior year.
- Capital assets, net of depreciation, are $844 thousand, a decrease of 5.7% or $51 thousand from the prior year. The decrease is the result of depreciation.

<u>Description of Basic Financial Statements</u>

Individual program accounting is maintained for each program of the JPA and is provided as supplemental information to the Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. The Statement of Net Position provides information about the combined financial position of PERMA as of June 30, 2015 and 2014. The Statement of Revenues, Expenses and Change in Net Position reports the operations of the organization for the years ended June 30, 2015 and 2014. The Statement of Cash Flows is presented on the direct method to reflect the operations of PERMA for the years ended June 30, 2015 and 2014 based strictly on the inflow and outflow of cash.

The *Notes to the Basic Financial Statements* provide information on unique accounting policies of PERMA, such as discounting of claim reserves, development of estimates of incurred but not reported liabilities and the provision for unallocated loss adjustment expenses. With the exception of implementing GASB Statement No. 68, there were no significant changes in the accounting practices of PERMA during the fiscal year.

The *Required Supplementary Information* contains schedules regarding PERMA's pension plan and Other Post Employment Benefits, a reconciliation of claims liabilities by type of contract and a schedule of claims development information for the liability and workers' compensation programs. Also, management has elected to include as additional supplementary information, a schedule of estimated outstanding losses within member retention levels for the liability and workers' compensation programs and a schedule of member deposits/member receivables for the year ended June 30, 2015 for all programs.

Analysis of Overall Financial Position and Results in Operations

Statement of Revenues, Expenses and Change in Net Position

	2015	2014	Increase (Decrease) Amount	Increase (Decrease) % Change	2013
Operating revenues:					
Deposit premiums	$ 7,413,630	$ 6,970,879	$ 442,751	6.4%	$ 6,932,430
Excess insurer dividends/ premium adjustments	324,337	274,559	49,778	18.1%	290,249
Other Income	158	715	(557)	-77.9%	1,258
Total operating revenues	7,738,125	7,246,153	491,972	6.8%	7,223,937
Operating expenses:					
Provision for claims and claim adjustment expenses	2,806,345	1,669,672	1,136,673	68.1%	5,019,863
Excess insurance	1,848,881	1,648,730	200,151	12.1%	1,628,258
General and administrative	1,942,986	1,875,145	67,841	3.6%	1,957,152
Member dividends/premium adjustments	1,228,461	1,203,492	24,969	2.1%	1,422,230
Total operating expenses	7,826,673	6,397,039	1,429,634	22.3%	10,027,503
Operating income (loss)	(88,548)	849,114	(937,662)	-110.4%	(2,803,566)
Non-operating income (expenses):					
Investment earnings	206,769	215,692	(8,923)	-4.1%	269,041
Net increase (decrease) in fair value of investments	183,521	204,805	(21,284)	-10.4%	(474,152)
Total non-operating income (loss)	390,290	420,497	(30,207)	-7.2%	(205,111)
Change in net position	301,742	1,269,611	(967,869)	-76.2%	(3,008,677)
Net position at beginning of year	17,977,436	17,371,317	606,119	3.5%	20,379,994
Net position at end of year	$18,279,178	$18,640,928	$ (361,750)	-1.9%	$17,371,317

Current Year 2015 to Prior Year 2014 Comparison

Total operating revenues are up 6.8% from the prior year primarily due to the increase in the pool funding rates in the liability and workers' compensation programs. Former liability excess insurer, CJPRMA, issued dividends for a fourth year. These dividends are not expected to continue and will taper off as PERMA has not been a member of CJPRMA since 2007.

Total operating expenses are up by 22.3% from the prior year primarily due to the overall 68.1% increase in the provision for claims and claim adjustment expenses. The increase is the result of the annual re-estimation of the unpaid claims and claim adjustment expenses which increased $1 million or 14.2%. Increase in liability and workers' compensation excess insurance resulted in an overall increase of 12.1%. General and administrative expenses and member dividends are up slightly by 3.6% and 2.1%, respectively.

Although yields are up marginally from the prior year, investment earnings are down 4.1% due to selling off some investments at a loss to better position the portfolio now instead of waiting to take the losses at the time of maturity. Fair value of investments continue to rebound but the net increase is down 10.4% from the prior year.

Prior Years 2014 and 2013 Comparison

Total operating revenues are up 0.3% from the prior period primarily due to a slight increase in the Workers' Compensation Program loss funding rates and a new member in the General Liability Program. Although former excess insurer, CJPRMA, issued dividends for a third year straight, CSAC-EIA did not issue a second year of dividends which is a primary reason for the 5.4% decrease in excess insurer dividends from the prior year.

Total operating expenses are down by 36.2% due primarily to the significant 66.67% decrease in the provision for claims and claim adjustment expenses. This decrease was the result of the annual re-estimation of the unpaid claims and claim adjustment which resulted in relatively the same claims liabilities amount as the prior year, meaning the $1.7 million in provision for claims and claim adjustment expense is primarily claims paid. General and administrative decreased 4.2% over the prior period due primarily to a one-time payoff last year of the CalPERS side fund. The 15.4% decrease in the member dividends was due to less dividends returned in the General Liability Program than the prior year and no dividends returned in the Workers' Compensation Program.

Investment earnings continued to decrease due to the economy and investment market. However, the fair value of investments did rebound from the prior period which resulted in an overall 305% increase in total non-operating items. According to PFM Asset Management (PERMA's investment advisor), the outlook for the economy is positive, and PFMAM expects that the Fed will begin to raise rates at some point, although the timing and amount of the rate increase are still unknown.

Statement of Net Position

			Increase (Decrease)		
	2015	2014	Amount	% Change	2013
Assets					
Current assets	$ 6,792,672	$ 9,761,560	$(2,968,888)	-30.4%	$ 8,827,014
Non-Current assets	32,838,930	27,676,394	5,162,536	18.7%	26,582,145
Capital assets-net	844,194	894,787	(50,593)	-5.7%	945,594
Deferred Outflows of Resources	83,195	-	83,195	-	-
Total Assets & Deferred Outflows	40,558,991	38,332,741	2,226,250	5.8%	36,354,753
Liabilities					
Current liabilities	15,679,491	14,999,844	679,647	4.5%	14,652,528
Non-Current liabilities	6,412,646	4,691,969	1,720,677	36.7%	4,330,908
Deferred Inflows of Resources	187,676	-	187,676	-	-
Total Liabilities & Deferred Inflows	22,279,813	19,691,813	2,588,000	13.1%	18,983,436
Net Position					
Invested in capital assets	844,194	894,787	(50,593)	-5.7%	945,594
Unrestricted net position	17,434,984	17,746,141	(311,157)	-1.8%	16,425,723
Total Net Position	$18,279,178	$18,640,928	$ (361,750)	-1.9%	$17,371,317

The increase or decrease in net position can provide an indication as to whether the overall financial position of PERMA improved or deteriorated during the year. For the year ended June 30, 2015, net position of PERMA decreased by 1.9% ($18.3 million compared to $18.6 million). For the year ended June 30, 2014, net position of PERMA increased by 7.3% ($18.6 million compared to $17.4 million). The net position (financial position) of PERMA changed as a result of the revenue and expense fluctuations described above.

PERMA invests its cash, which is not immediately needed to pay claims, in accordance with a Board adopted policy. Funds are invested in the California Local Agency Investment Fund (LAIF) and Public Financial Management (PFM) portfolios. On June 30, 2015, 2014 and 2013, our non LAIF investments, including accrued interest, are valued at $33,458,136, $29,872,139 and $29,218,456, respectively.

Analysis of Balances and Transactions of Individual Funds

As the overall financial results of PERMA are simply the sum of the results of each individual coverage program, the results of each program will be discussed in the sections below.

General Liability Program

Total Operating Revenues for the General Liability Program increased by $254 thousand for the year ended June 30, 2015 due to slightly higher funding rates. Total operating expenses increased significantly by 42.1% or $1.8 million due to a $1.7 million increase in the provision for claims and claim adjustment expenses over the prior year. The program realized an operating loss of $498 thousand.

The ending net position of the Program is $16,235,988, a decrease of 1.1% or $179,595 from the prior year.

Workers' Compensation Program

Total Operating Revenue for the Workers' Compensation Program increased by $238 thousand for the year ended June 30, 2015 due to a higher funding rate. Total operating expenses decreased 16.3% or $353 thousand due primarily to a $551 thousand decrease in the provision for claims and claim adjustment expenses over the prior year. The program realized an operating income of $409 thousand.

The ending net position of the Program is $2,043,190, an increase of 30.8% or $481,337 from the prior year.

Employment Practices Liability Program

PERMA is a member of the Employment Risk Management Authority (ERMA) for employment practices liability (EPL) coverage. Members that opt for this coverage join ERMA as an underlying member of PERMA and share risk with other ERMA members. There is no risk sharing at the PERMA level. As such, the net position of this Program for the year ended June 30, 2014 is $0.

ERMA declared dividends in FY 2014/15 and PERMA's members' share was $515 thousand. As PERMA is the ERMA member, PERMA recorded the receivable and credited the members' deposit accounts. The actual dividend check was received in July 2015 and PERMA disbursed the money to the members.

Crime Coverage, Cyber Liability and Property Programs

The Crime Coverage, Cyber Liability and Property Programs operate as a group purchase insurance programs for crime and property insurance to protect members' physical assets from financial loss. There is no risk sharing between the members in the Programs. As such the net positions of the Programs for the year ended June 30, 2015 are $0 for each program.

Capital Assets

Capital Assets
(net of depreciation, in thousands)

	2015	2014	2013
Building	$ 811.2	833.6	856.0
Furniture and equipment	30.9	57.2	83.7
Software	2.1	4.0	5.9
Total capital assets, net	$ 844.2	$ 894.8	$ 945.6

There was no significant capital asset activity during the years ended June 30, 2015, 2014, and 2013. For more detailed information, please refer to Capital Assets, Note 3, in the notes to the basic financial statements.

Long-Term Debt

PERMA has no long-term debt.

Economic Factors

In developing the annual budget and premiums for the fiscal years ended June 30, 2015 and 2014, staff and the Board of Directors took into account the factors that had significant potential to adversely affect the budgeted figures: primarily the claims, investments, and insurance environments.

The Board funded the general liability and workers' compensation programs for the fiscal year ended June 30, 2014 at a 65% confidence level and continued funding the programs at a 65% confidence level for the fiscal year ended June 30, 2015. A 65% confidence level is the actuary's undiscounted recommended funding.

PERMA members are experiencing severe revenue shortfalls and budget constraints. PERMA has been able to respond with viable risk coverage options and continued annual dividend returns.

Financial Management and Control

PERMA management is responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for preparation of financial statements in conformity with generally accepted principles.

PERMA's finance staff consists of a Financial Analyst who is responsible for the primary functions of accounting for PERMA. Oversight is provided by the Treasurer and the General Manager/Auditor.

Contacting PERMA

This financial report is designed to provide a general overview of PERMA's finances for all those with an interest in PERMA's finances. Questions concerning any of the information should be addressed to Public Entity Risk Management Authority (PERMA) at 36-951 Cook Street, Suite 101, Palm Desert, California 92211.

Non-cash capital, financing and investing activities:		
Unrealized gains on investments	$ 183,521	$ 204,805

See accompanying notes to financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

History and Organization

Public Entity Risk Management Authority (PERMA) was formed July 25, 1985 under a joint exercise of powers agreement between local governments and special districts for the purpose of jointly funding programs of insurance under Section 990 of the California Government Code.

PERMA is governed by a Board of Directors, which is composed of one director from each member organization which maintains membership in the Liability program.

PERMA provides the following coverage programs, as described below, to its membership: Liability, Workers' Compensation, Crime Coverage, Cyber Liability, Employment Practices Liability, Property, Employee Benefits and Special Events. In addition to the coverage programs, PERMA provides risk management services, which includes training in areas needed by the member.

All members must participate in the Liability program and may elect to participate in the other programs. Members withdrawing from a program may be assessed a premium upon final disposition of all known and future claims arising from losses incurred by that program during the period of the agency's participation. After completing three years as a participating member and upon proper notice, a governmental agency may elect to withdraw from its status as a member at the end of a policy year.

If PERMA experiences an unusually large number of losses during a policy year, the funds for a given program may become exhausted. In such a case, the Board may impose premium surcharges on all members who were in the program at the time such loss or losses occurred in order to pay necessary costs. However, annual surcharges shall not exceed an amount equal to three times the member's annual premium for the policy year in which such loss occurred. Each member surcharge shall be based upon its pro rata share of premiums paid in said year. It is understood this does not limit PERMA from imposing surcharges in future years, even losses for which a levy may have been imposed in a previous year.

Insurance Programs

Liability Program

The Liability program provides defense and indemnity coverage against claims and suits arising from covered occurrences.

For the years ended June 30, 2015 and 2014, the limits of coverage are $50 million per occurrence. The coverage is provided through a primary maximum exposure to PERMA of $1 million through risk sharing pools, followed by membership in the CSAC Excess Insurance Authority (EIA) for $49 million excess liability coverage.

Within PERMA's $1 million retention, each member selects its self-insured retention of $0, $10,000, $25,000, $50,000, $75,000, $100,000, $125,000, $250,000, or $500,000. Each member assumes its own losses up to its retention level. The member participates in a multi-level risk sharing pool arrangement for coverage above its retention. PERMA maintains member's equity accounts for each pool member. Beginning July 1, 2015 a new self-insured retention of $5,000 is available for members to select.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Insurance Programs (Continued)

Liability Program (Continued)

The annual deposit premiums are approved by the Board of Directors and are intended to cover PERMA's claim expenses, settlements, and operating costs. Annual deposit premiums are based on actuarially-determined rates for each coverage layer (pool), based on an estimate of the probable losses, and budgeted administrative costs of PERMA for the year in question. Member deposit premiums are subject to retrospective rating adjustments.

PERMA administers the claims of the membership. Members have the option of having a Third-Party Administrator (TPA) administer their claims or administering their own claims within their retention. Either option is subject to Board approval.

Workers' Compensation Program

The Workers' Compensation program provides statutory benefits for employee injuries arising out of and in the course of employment.

For the years ended June 30, 2015 and 2014, the limits of coverage are statutory per accident for workers' compensation and $5 million each accident for employers' liability. Coverage is provided through a primary maximum exposure to PERMA of $500,000 through a risk sharing pool, followed by membership in the Local Agency Workers' Compensation Excess Joint Powers Authority (LAWCX) for excess coverage.

Within PERMA's $500,000 retention, each member selects its self-insured retention of either $250,000 or $500,000. Each member assumes its own losses up to its retention level. A risk sharing pool provides the coverage for the $250,000 to $500,000 layer. PERMA maintains member's equity accounts for each pool member. Beginning July 1, 2015 new self-insured retentions of $50,000, $100,000, $150,000 and $200,000 are available for members to select.

The annual deposit premiums are approved by the Board of Directors and are intended to cover PERMA's claim expenses, settlements, and operating costs. Annual deposit premiums are based on actuarially-determined rates for each coverage layer (pool), based on an estimate of the probable losses, and budgeted administrative costs of PERMA for the year in question. Member deposit premiums are subject to retrospective rating adjustments.

Within the member's retention, the pool will advance funds to pay member losses in excess of member funds on deposit in the manner of a banking pool. Participant deposit premiums are subject to retrospective rating adjustments. Amounts held by PERMA on behalf of the participants are accounted for as member deposits in the accompanying financial statements. Member's claims within retention and third party administration fees paid by PERMA are charged against each member's deposit and are not charged to PERMA operations as an expense.

Workers' Compensation Program (Continued)

PERMA contracts with AdminSure, CorVel Corporation, and York Risk Services Group for Workers' Compensation claims administration.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Insurance Programs (Continued)

Crime Coverage Program

The Crime Coverage program provides public employee dishonesty, forgery or alteration, and computer fraud coverage.

Cyber Liability Program

The Cyber Liability program provides coverage for information security & privacy liability, privacy notification costs, regulatory defense & penalties, website media content liability, cyber extortion, first party data protection & business interruption losses. The program provides its insureds with access to a breach response team consisting of privacy expert attorneys, forensic specialists to determine scope of breach, notification vendors, and credit monitoring services at preferred rates.

Employment Practices Liability Program

The Employment Practices Liability (EPL) program provides members coverage for employment related lawsuits, such as wrongful termination and discrimination, through participation in the Employment Risk Management Authority (ERMA).

Property Insurance Program

The Property Insurance program is group purchased under a Master Property Insurance Policy with accumulated property and vehicle values from all participants effecting lower rates and broader coverage for members.

The program covers real property, business personal property, inland marine coverage for special mobile equipment, business interruption, and auto physical damage. Optional earthquake coverage is available. Coverage is written on an all risk basis, eliminating the traditional commercial “named peril” policy.

Employee Benefits Program

This is a fully insured program providing a wide range of health and welfare benefits and services to the membership.

Special Events Program

The Special Events program allows members of the public to purchase Liability Insurance at a substantially reduced cost for functions held on member premises (such as weddings, meetings, parades), transferring the risk of liability from the member organization to the group sponsoring the event.

Measurement Focus

The accounts of PERMA are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenses. Government resources are allocated and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Enterprise funds, which fall under the Proprietary Fund Type category, are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the cost of providing services to the members on a continuing basis be financed or recovered primarily through user charges or where periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Proprietary funds are accounted for on a *flow of economic resources* measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net assets. Their reported net position is segregated into investment in capital assets and unrestricted components. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Excess Insurance

PERMA enters into excess insurance agreements, whereby, it cedes various amounts of risk to other insurance companies. Risks ceded to insurance companies are treated as though they were not risks for which PERMA is liable. Settlements have not exceeded insurance coverage in each of the past three years.

Investments

Investments are reported in the accompanying Statement of Net Position at fair value. *Investment earnings* include interest income and any gains or losses realized upon the liquidation, maturity, or sale of investments. Changes in fair value that occur during a fiscal year are recognized as *net increase (decrease) in fair value of investments* reported for that fiscal year.

PERMA pools cash and investments for all programs. Each program's share in this pool is displayed in the accompanying financial statements. Investment earnings of pooled investments are allocated to the various programs based on each program's average cash and investment balance.

Cash and Cash Equivalents

PERMA considers short-term, highly liquid investments, purchased within three months of maturity to be cash equivalents, including LAIF, for purposes of the statement of cash flows.

Member Receivables / Member Deposits

Member receivables and member deposits represent funds due to PERMA and funds held by PERMA, respectively, for the payment of member claims and other expenses that do not involve a transfer of risk.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets include furniture, equipment, and software with a cost of $5,000 or more and buildings and building improvements with a cost of $50,000 or more. Capital assets are valued at historical cost or estimated historical cost (if historical cost is not available) or estimated fair value on the date donated (if the assets are donated). Capital assets are depreciated using the straight-line methodology over the asset's estimated useful life as follows:

Buildings and improvements	40 years
Furniture and Equipment	5 years
Software	5 years

Compensated Absences

Compensated absences reflect the accrued benefits due employees at June 30, 2015 and 2014.

Revenue Recognition

Deposit premiums are recognized as revenue when earned based upon the coverage period of the related insurance. To the extent that allocated losses exceed contributions previously paid, interest and other income, PERMA can assess its members additional premiums. Operating revenues and expenses include all activities necessary to achieve the objectives of PERMA. Non-operating revenues and expenses include investment activity.

Provision for Unpaid Claims and Claim Adjustment Expenses

PERMA establishes unpaid claims and claim adjustment expenses based on estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Because actual claim costs depend on such complex factors as inflation, changes in doctrine of legal liability, and damage awards, the process used in computing unpaid claims and claim adjustment expenses does not necessarily result in an exact amount.

Unpaid claims and claim adjustment expenses are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflects past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to unpaid claims and claim adjustment expenses are charged or credited to expense in the period in which they are made. The current portion of the outstanding claims liability is estimated using known claim information at June 30 and the previous three years payment pattern.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Confidence Level Used by PERMA

The liability for unpaid claims and claim adjustment expenses must be measured in terms of a confidence level because the actual development and outcome of claims (and of losses incurred but not reported as claims) cannot be known with absolute certainty. Confidence level measures the degree of certainty in estimating the liability for unpaid claims and claim adjustment expenses. For example, a 55% confidence level means that 55% of the time, the methodology and assumptions used by the actuary will produce an estimate of the liability for unpaid claims and claim adjustment expenses that is equal to (or greater than) the actual amount that will be paid for those claims and losses. Currently, PERMA utilizes a 55% confidence level for the purpose of valuing the liability for unpaid claims and claim adjustment expenses in the accompanying Statement of Net Position.

Income Taxes

PERMA is an organization comprised of public agencies, and is exempt from Federal income and California franchise taxes. Accordingly, no provision for Federal or State income taxes has been made in the accompanying financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comparative Data

Totals for the prior year have been presented in the accompanying financial statements for comparison purposes. However, these totals do not represent a complete presentation of the prior year data in accordance with accounting principles generally accepted in the United States of America because a breakdown by program has not also been presented.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERMA's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments at June 30, 2015 and 2014 are reported at fair value and consisted of the following:

	2015	2014
Cash and cash equivalents:		
Petty Cash	$ 150	$ 150
Cash in bank	76,996	38,796
Money market funds	24,065	58,647
State Investment Pool (LAIF)	5,015,885	6,422,918
Total cash and cash equivalents	5,117,096	6,520,511
Investments:		
Federal agency securities	9,420,026	12,584,508
U. S. Treasury notes	10,843,950	9,197,531
Corporate securities	9,169,425	6,390,997
Municipal bonds	1,281,791	1,109,567
Certificates of deposits	2,624,513	473,059
Total Investments	33,339,705	29,755,662
Total cash and cash equivalents and investments:	$ 38,456,801	$ 36,276,173

	2015	2014
Reconciliation to Statement of Net Position:		
Current assets:		
Cash and cash equivalents	$ 5,117,096	$ 6,520,511
Investments	500,775	2,079,268
	5,617,871	8,599,779
Non-current assets:		
Investments	32,838,930	27,676,394
Total	$ 38,456,801	$ 36,276,173

2. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Investments Authorized by the California Government Code and PERMA's Investment Policy

The table below identifies the investment types that are authorized for PERMA by the California Government Code and PERMA's investment policy. The table also identifies certain provisions of the California Government Code (or PERMA's investment policy, if more restrictive) that address interest rate risk and concentration of credit risk.

Investment Types Authorized by State Law	Authorized By Investment Policy	*Maximum Maturity	*Maximum Percentage Of Portfolio	*Maximum Investment In One Issuer
Local Agency Bonds	Yes	10 years	100%	5%
U.S. Treasury Obligations	Yes	10 years	100%	None
U.S. Agency Securities	Yes	10 years	100%	None
Banker's Acceptances	Yes	180 days	40%	5%
Commercial Paper	Yes	270 days	25%	5%
Negotiable Certificates of Deposit	Yes	5 years	30%	5%
Repurchase Agreements	No	N/A	N/A	N/A
Reverse Repurchase Agreements	No	N/A	N/A	N/A
Medium-Term Notes	Yes	5 years	30%	5%
Mutual Funds	No	N/A	N/A	N/A
Money Market Mutual Funds	Yes	N/A	20%	None
Asset-Backed Securities	Yes	5 years	20%	5%
USD Denominated Senior Unsecured Unsubordinated Obligations	Yes	5 year	30%	None
County Pooled Investment Funds	No	N/A	None	None
Local Agency Investment Fund (LAIF)	Yes	N/A	$50 million	None
JPA Pools (other investment pools)	Yes	N/A	100%	None

* Based on state law requirements or investment policy requirements, whichever is more restrictive.

PERMA's investment policy allows a maximum of 25% of the portfolio to be invested for more than five years but not to exceed ten years.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that PERMA manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of PERMA's investments to market interest rate fluctuations is provided by the following tables that show the distribution of PERMA's investments by maturity at June 30, 2015 and 2014:

2. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Disclosures Relating to Interest Rate Risk (Continued)

	Remaining Maturity (in years) at June 30, 2015			
Investment Type	Total	Less than 1 year	1 to 5 years	5 to 10 years
Federal agency securities	$ 9,420,026	$ -	$ 5,494,682	$ 3,925,344

Certificates of deposits	2,624,513	-	2,624,513	-
Total	$ 33,339,705	$ 500,775	$ 25,162,525	$ 7,676,405

	Remaining Maturity (in years) at June 30, 2014			
Investment Type	Total	Less than 1 year	1 to 5 years	5 to 10 years
Federal agency securities	$ 12,584,508	$ 501,233	$ 7,928,201	$ 4,155,074
U.S. Treasury notes	9,197,531	1,578,035	6,185,356	1,434,140
Corporate securities	6,390,997	-	6,390,997	-
Municipal bonds	1,109,567	-	1,109,567	-
Certificate of deposits	473,059	-	473,059	-
Total	$ 29,755,662	$ 2,079,268	$ 22,087,180	$ 5,589,214

PERMA's portfolio includes the following investments that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information provided above):

	Fair Value at June 30, 2015	Fair Value at June 30, 2014
Callable Federal agency securities	$ 2,853,363	$ 6,922,712
Callable Corporate securities	$ 820,092	$ 495,184
Callable Certificate of deposits	$ 649,637	$ -

These securities are subject to early payment in a period of declining interest rates. The resultant reduction in expected total cash flows affects the fair value of these securities and makes the fair value of these securities highly sensitive to changes in interest rates.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, PERMA's investment policy, or debt agreements, and the actual Standard and Poor's ratings as of June 30, 2015 and 2014 for each investment type.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Disclosures Relating to Credit Risk (Continued)

Investment Type	Amount	Not Rated	Ratings as of June 30, 2015 AAA/A-1	AA	A	AAAm

Concentration of Investment Credit Risk

The investment policy of PERMA contains some limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities and external investment pools) that represented 5% or more of total PERMA investments for the years ended June 30, 2015 and 2014 are as follows:

Issuer	Investment Type	2015	%	2014	%
FHLMC	Federal agency securities	$ 2,752,675	7.2%	$ 4,252,384	11.7%
FNMA	Federal agency securities	2,751,944	7.2%	3,068,263	8.5%
FHLB	Federal agency securities	2,604,067	6.8%	3,914,491	10.8%

2. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and PERMA's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure PERMA deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2015 and 2014, there were no deposits with financial institutions in excess of federal depository insurance limits that were held in uncollateralized accounts.

Investment in State Investment Pool

PERMA is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of PERMA's investment in this pool is reported in the accompanying financial statements at amounts based upon PERMA's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on the amortized cost basis. Included in LAIF's investment portfolio are mortgage-backed securities, other asset-backed securities, loans to certain state funds, securities with interest rates that vary according to changes in rates greater than a one-for-one basis, and structured notes.

Realized Gains and Losses

For the years ended June 30, 2015 and 2014, PERMA's investment portfolio realized a net loss of $223,138 and $196,686, respectively, from the sale of investments. For the year ended June 30, 2015, $150,287 was recognized as a realized net loss to PERMA and $72,851 as a realized net loss to member deposits. For the year ended June 30, 2014, $159,513 was recognized as a realized net loss to PERMA and $37,173 as a realized net loss to member deposits. The calculation of realized gains and losses is independent of the calculation of the net increase or decrease in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year. The net increase in the fair value of PERMA's total investment portfolio for the years ended June 30, 2015 and 2014, was $264,607 and 306,242, respectively. For the year ended June 30, 2015, $183,521 was apportioned to PERMA and $81,086 to member deposits. For the year ended June 30, 2014, $204,805 was apportioned to PERMA and $101,437 to member deposits. These amounts take into account all changes in fair value (including purchases and sales) that occurred during the respective year. The unrealized loss on PERMA's investment portfolio held at June 30, 2015 and 2014 was $80,735 and $345,342, respectively.

3. CAPITAL ASSETS

The following are the schedule of changes in capital assets for the years ended June 30, 2015 and 2014.

	Balance at June 30, 2014	Additions	Deletions	Balance at June 30, 2015
Capital assets being depreciated:				
Buildings	$ 897,155	$ -	$ -	$ 897,155
Furniture and equipment	158,471	-	-	158,471
Software	66,973	-	-	66,973
Total capital assets being depreciated	1,122,599	-	-	1,122,599
Less accumulated depreciation:				
Buildings	(63,548)	(22,429)	-	(85,977)
Furniture and equipment	(101,275)	(26,328)	-	(127,603)
Software	(62,989)	(1,836)	-	(64,825)
Total accumulated depreciation	(227,812)	(50,593)	-	(278,405)
Total capital assets, net	$ 894,787	$ (50,593)	$ -	$ 844,194

	Balance at June 30, 2013	Additions	Deletions	Balance at June 30, 2014
Capital assets being depreciated:				
Buildings	$ 897,155	$ -	$ -	$ 897,155
Furniture and equipment	158,471	-	-	158,471
Software	66,973	-	-	66,973
Total capital assets being depreciated	1,122,599	-	-	1,122,599
Less accumulated depreciation:				
Buildings	(41,120)	(22,428)	-	(63,548)
Furniture and equipment	(74,780)	(26,495)	-	(101,275)
Software	(61,105)	(1,884)	-	(62,989)
Total accumulated depreciation	(177,005)	(50,807)	-	(227,812)
Total capital assets, net	$ 945,594	$ (50,807)	$ -	$ 894,787

For the years ended June 30, 2015 and 2014, depreciation expense in the amount of $50,593 and $50,807, respectively, was recognized by PERMA.

4. UNPAID CLAIMS AND CLAIM ADJUSTMENT EXPENSES

As discussed in Note 1, PERMA establishes a liability for both reported and unreported insured events. The following represented changes in aggregate liabilities during the years ended June 30, 2015 and 2014:

	2015	2014
Unpaid claims and claim adjustment expenses at beginning of year	$ 7,091,076	$ 7,039,484
Incurred claims and claim adjustment expenses:		
Provision for insured events of the current year	2,516,028	1,941,392
Change in provision for insured events of prior years	290,317	(271,720)
Total incurred claims and claim adjustment expenses	2,806,345	1,669,672
Payments:		
Claims and claim adjustment expenses attributable to insured events of the current year	(68,862)	(5,921)
Claims and claim adjustment expenses attributable to insured events of prior years	(1,728,513)	(1,612,159)
Total payments	(1,797,375)	(1,618,080)
Total unpaid claims and claim adjustment expenses at end of year	$ 8,100,046	$ 7,091,076

Unpaid claims and claim adjustment expenses of $8,517,386 and $7,445,242 at June 30, 2015 and 2014 are presented at their net present value of $8,100,046 and $7,091,076, respectively. These liabilities were discounted at an annual rate of 2%.

The components of the unpaid claims and claim adjustment expenses as of June 30, 2015 and 2014 were as follows:

	2015	2014
Reported claims	$ 4,684,444	$ 3,845,151
Claims incurred but not reported (IBNR)	3,029,883	2,908,254
Unallocated loss adjustment expenses	385,719	337,671
Total	8,100,046	7,091,076
Less current portion	(2,280,000)	(2,480,000)
Non-current portion	$ 5,820,046	$ 4,611,076

5. TOTAL NET POSITION

Total net position is based upon the equity position of each policy year. Some policy years report an excess of premiums over estimated claims and expenses, which results in positive equity. Other policy years report a deficiency of premiums, which results in a deficit position. This is an approximation at this time and is subject to future changes in premium contributions and claims data. As of June 30, 2015 and 2014, the total net position for the General Liability risk sharing pool and the Workers' Compensation risk sharing pool are estimated as follows:

Program	2015	2014 (as restated - Note 10)
General Liability	$ 16,235,988	$ 16,415,583
Workers' Compensation	2,043,190	1,561,853
Total Net Position	$ 18,279,178	$ 17,977,436

6. PENSION PLAN

Plan Description

All qualified permanent and probationary employees are eligible to participate in PERMA's Miscellaneous Employee Pension Plan, a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and PERMA resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the plan are applied as specified by the Public Employees' Retirement Law.

The Plan's provisions and benefits in effect at June 30, 2015, are summarized as follows:

	Miscellaneous	
Hire Date	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	2.7% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 55	52 - 67
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%
Required employee contribution rates	8%	6.5%
Required employer contribution rates	17.692%	6.7%

6. PENSION PLAN (Continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2015, PERMA reported $542,415 in net pension liabilities for its proportionate share of the net pension liability of the Plan.

PERMA's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2014, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014 using standard update procedures. PERMA's proportion of the net pension liability was based on a projection of PERMA's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. PERMA's proportionate share of the net pension liability for the Plan as of June 30, 2013 and 2014 was as follows:

Proportion – June 30, 2013	0.00919%
Proportion – June 30, 2014	0.00872%
Change – Increase (Decrease)	-5.11425%

For the year ended June 30, 2015, PERMA recognized pension expense of ($16,596). At June 30, 2015, PERMA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 83,195	$ 0
Differences between actual and expected experience	0	0
Changes in assumptions	0	0
Change in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions	0	(5,399)
Net differences between projected and actual earnings on plan investments	0	(182,277)
Total	$ 83,195	$ (187,676)

$83,195 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

6. PENSION PLAN (Continued)

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Year Ended June 30		
2015	$	(49,046)
2016		(49,046)
2017		(48,349)
2018		(45,570)
2019		0
Thereafter		0

Actuarial Assumptions

The total pension liabilities in the June 30, 2013 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2013
Measurement Date	June 30, 2014
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.5%
Inflation	2.75%
Payroll Growth	3.0%
Projected Salary Increase	3.30% to 14.20% depending on age, service, and type of employment
Investment Rate of Return	7.5% net of pension plan investment expenses, including inflation
Mortality	Derived using CalPERS' membership data for all funds

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2013 valuation were based on the results of a January 2014 actuarial experience study for the period 1997 to 2011. Further detail of the Experience Study can be found on the CalPERS website.

Discount Rate

The discount rate used to measure the total pension liability was 7.50% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.50 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.50 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without a reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

6. PENSION PLAN (Continued)

Discount Rate (Continued)

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10(a)	Real Return Years 11+(b)
Global Equity	47.0%	5.25%	5.71%
Global Fixed Income	19.0%	0.99%	2.43%
Inflation Sensitive	6.0%	0.45%	3.36%
Private Equity	12.0%	6.83%	6.95%
Real Estate	11.0%	4.50%	5.13%
Infrastructure and Forestland	3.0%	4.50%	5.09%
Liquidity	2.0%	-0.55%	-1.05%
Total	100.0%		

(a) An expected inflation of 2.5% used for this period.
(b) An expected inflation of 3.0% used for this period.

6. PENSION PLAN (Continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents PERMA's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what PERMA's proportionate share of the net pension liability would be if it were calculated using a discount rate this is 1-percentage point lower or 1-percentage point higher than the current rate:

	Miscellaneous
1% Decrease	6.50%
Net Pension Liability	$966,416
Current Discount Rate	7.50%
Net Pension Liability	$542,415
1% Increase	8.50%
Net Pension Liability	$190,534

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Payable to the Pension Plan

At June 30, 2015, PERMA had no amount payable to the Pension Plan for the year ended June 30, 2015; all contributions to the pension plan required for the year were paid.

7. OTHER POST EMPLOYMENT BENEFITS (OPEB)

Plan Description

PERMA provides a defined benefit healthcare plan (the "Retiree Health Plan"). The Retiree Health Plan provides lifetime healthcare insurance for eligible retirees through the CalPERS Health Benefit Program, which covers both active and retired members. Spouses are also covered throughout his or her life. PERMA only pays up to the required minimum employer premium contribution calculated using the unequal contribution method. Under this method, PERMA's contributions for the retiree is calculated by the number of years PERMA has participated in CalPERS, multiplied by at least five percent (5%), and multiplied by the current employer contribution toward active employees, which is adjusted based on the medical care portion of the Consumer Price Index.

Funding Policy

PERMA's Board of Directors will not be funding the plan in the current year. The Board will review the funding requirements and policy annually.

7. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Annual OPEB Cost and Net OPEB Obligation

PERMA's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). PERMA has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB Statement No. 45 for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over the remaining period of 30 years. The following table shows the components of PERMA's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in its net OPEB obligation to the Retiree Health Plan:

Annual Required Contribution	$ 14,182
Interest on net OPEB obligation	966
Adjustment to annual required contribution	(1,200)
Annual OPEB cost (expense)	13,949
Contributions made	2,424
Increase in net OPEB obligation	11,525
Net OPEB obligation - beginning of year	38,660
Net OPEB obligation - end of year	$ 50,185

PERMA's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the last three fiscal years is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2013	$ 10,256	20%	$ 26,958
June 30, 2014	$ 14,020	17%	$ 38,660
June 30, 2015	$ 13,949	17%	$ 50,185

Funding Status and Funding Progress

As of July 1, 2013, the actuarial accrued liability (AAL) for benefits was $141,384, all of which is unfunded. This unfunded actuarial accrued liability (UAAL) is 30.4% of the annual covered payroll of $464,775.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality and healthcare cost trends. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

7. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term prospective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 65, or at the first subsequent year in which the member would qualify for benefits.

Mortality – Life expectancies at the calculation date are based on the most recent mortality tables published by the National Center for Health Statistics website (www.cdc.gov). The calculation of OPEB liability for each year is based on the assumption that all participants will live until their expected age as displayed in the mortality tables.

Turnover – The probability that an employee will remain employed until the assumed retirement age was determined using non-group-specific age-based turnover data provided in Table 1 in paragraph 35 of GASB Statement No. 45. In addition the expected future working lifetimes of employees were determined using Table 2 in paragraph 35c of GASB Statement No. 45.

Healthcare cost trend rate – Healthcare cost trend rates were selected based on a combination of national and state trend surveys as well as professional judgment. The ultimate trend rate was 4%.

Health insurance premiums – 2013 health insurance premiums for retirees were used as a basis for calculation of the present value of total benefits to be paid. An employee is assumed to continue with the same medical plan upon retirement. If an employee waived medical coverage, then such waiver is assumed to continue into retirement.

Medicare Coordination – Medicare was assumed as the primary payer for current and future retirees at age 65.

Payroll increase – Changes in the payroll for current employees are expected to increase at a rate of approximately 2.8% annually.

Discount rate – The calculation uses an annual discount rate of 2.5%. This is based on the assumed long-term return on plan assets or employer assets.

General inflation rate – 2.75%.

Actuarial cost method – The entry age actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at July 1, 2013 was twenty-nine years.

7. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

Plan for Funding

On an ongoing basis, the Authority will be reviewing its assumptions, comparing them against actual experience and recalculating the needed funding with the goal of paying for post-employment benefits out of interest earned on designated funds.

8. DEFERRED COMPENSATION PLAN

PERMA offers its employees a deferred compensation plan (the "Plan") created in accordance with Internal Revenue Code Section 457. The Plan, available to all PERMA employees, permits them to defer a portion of their salaries until future years. Participants can elect to contribute 100% of their annual compensation, not to exceed $18,000. The deferred compensation is not available to employees until termination, retirement, or unforeseeable emergency. Deferred compensation is available to employees' beneficiaries in case of death. The Plan assets are held in trust for the exclusive benefit of Plan participants and their beneficiaries and, therefore, are excluded from the accompanying financial statements.

9. JOINT POWERS AGREEMENT

PERMA participates in three joint powers authorities (JPAs) with CSAC Excess Insurance Authority (EIA), Local Agency Workers' Compensation Excess Joint Powers Authority (LAWCX) and Employment Risk Management Authority (ERMA). The relationship between PERMA and the JPAs is such that the JPAs are not component units of PERMA for financial reporting purposes.

The joint powers authorities are governed by boards of directors consisting of representatives of the member agencies. The boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the member agencies beyond their representation on the board. Each member agency pays a premium commensurate with the level of coverage requested. As a member of the JPAs, PERMA is entitled to retrospective premium adjustments for those claim years where costs were more or less than expected.

CSAC Excess Insurance Authority

CSAC-EIA is a Joint Powers Authority established under California Government Code § 6500 et seq. in October 1979. The EIA operates programs for excess and primary workers' compensation, two excess liability programs, a primary liability program, a property program, a medical malpractice program, an employee health benefit program, a dental program and a miscellaneous program for other coverages. The EIA also provides support services for selected programs such as claims administration, risk management, claims audits, loss prevention and training and subsidies for actuarial studies and risk management services.

The EIA is governed by a 62 member Board of Directors. The Authority's Board of Directors elects from its membership a President, Vice President and nine members to serve as the Executive Committee. The day-to-day operations of the EIA are conducted by the Chief Executive Officer who is responsible for administration of policies set forth by the Joint Powers Agreement, Bylaws, Board of Directors and Executive Committee.

PERMA has been a member of CSAC-EIA since July 1, 2008, and participates in the General Liability I (GLI) Program for excess liability insurance which provides coverage up to $50 million in excess of $1 million. PERMA also participates in the dental program for staff dental benefits.

9. JOINT POWERS AGREEMENT (Continued)

Local Agency Workers' Compensation Excess Joint Powers Authority

LAWCX was formed on July 1, 1992, as a state-wide joint powers authority to self-insure and pool excess workers' compensation losses. The Program was established exclusively for California self-insured joint powers authorities, individual public entities, and special districts. The LAWCX program is designed to provide all services necessary and appropriate for the establishment, operation, and maintenance of a joint program of excess workers' compensation coverage for its member agencies.

LAWCX offers self-insured retentions (SIR) ranging from $150,000 to $1,000,000 or a member can attach directly to the purchased excess insurance. LAWCX covers the layer above the member's SIR up to $5 million. There are three pool layers which are funded using actuarially determined rate factors. One layer is known as the $150k pool; another as the $250k pool and the third as the $2 million to $5 million mid-layer pool. For excess coverage, LAWCX is a member of CSAC-EIA which provides coverage up to statutory limits.

LAWCX is governed by a 34 member Board of Directors. The Board of Directors elects from its membership, a President, Vice President and seven members to serve as the Executive Committee. LAWCX contracts with Bickmore Risk Services to handle the day-to-day operations of LAWCX.

PERMA was a founding member of LAWCX, but withdrew on July 1, 2000, and later rejoined on September 1, 2003. PERMA's General Manager, Scott Ellerbrock, is the appointed director on the LAWCX Board and is the elected President and a member of the Executive Committee. PERMA's Financial Analyst, Michael Caton, is the alternate director.

On June 11, 2013, the LAWCX Board approved a $1.8 million assessment over three years. PERMA's share of the assessment was $126,699. Since the assessment is for policy years prior to PERMA's risk sharing pool, the assessment was apportioned to the members based on their share of premiums and charged to their workers' compensation member deposit accounts.

Employment Risk Management Authority (ERMA)

ERMA is a public entity joint powers authority, created in 1999 by and among various underlying joint powers authorities in California to provide the state's only pooled approach to exclusively covering and providing loss prevention and litigation management services for the employment practices liability (EPL) exposure for California public entities. ERMA consists of ten primary members, consisting of eight joint powers authorities and two housing authorities. The JPA's underlying members are also direct members of ERMA and are made up of municipalities and special districts. ERMA provides coverage from each underlying member's individual SIR up to $1 million. Members currently attach to the pool at SIRs ranging from $25,000 to $500,000. Optional excess insurance to $2 million is available for those members who chose to purchase that additional coverage through ERMA.

ERMA is governed by a Board of Directors, which is composed of one director from each member organization. The Board of Directors elects from its membership, a President, Vice President and a few members to serve as the Underwriting and Coverage Committees. ERMA contracts with Bickmore Risk Services to handle the day-to-day operations of ERMA.

PERMA became a member of ERMA on September 14, 2000. PERMA's General Manager, Scott Ellerbrock, is the appointed director on the ERMA Board and is the elected Vice President and a member of the subcommittees. PERMA's Claims Manager, Kerry Trost, is the alternate director.

9. JOINT POWERS AGREEMENT (Continued)

Employment Risk Management Authority (ERMA) (Continued)

On April 20, 2015, the ERMA Board approved a retrospective adjustment of $3.0 million. PERMA's share of the return was $515,469. Since the EPL program is a non-risk sharing program, essentially a pass-through, the return was apportioned to the members based on their share of premiums over the various policy years and distributed directly to the members

Condensed Financial Information.

Condensed financial information for the fiscal year ended June 30, 2014 (the most current information available) is as follows:

	CSAC-EIA	LAWCX	ERMA
Total assets	$ 592,584,275	$ 75,575,526	$ 27,136,775
Total liabilities	479,255,274	56,692,721	8,631,638
Net position	$ 113,329,001	$ 18,882,805	$ 18,505,137
Revenues	$ 579,788,934	$ 10,580,567	$ 5,984,260
Expenses	585,075,329	18,390,529	7,225,148
Change in net position	$ (5,286,395)	$ (7,809,962	$ (1,240,888)

10. RESTATEMENT OF NET POSITION AT BEGINNING OF THE YEAR

The accompanying basic financial statements reflect a restatement of beginning net position as of July 1, 2014 to reflect new accounting standards that provide additional transparency on long-term pension obligations in annual financial reports. These new accounting standards were issued by the Governmental Accounting Standards Board (GASB) in its Statement No. 68*, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27* ("GASB 68"). The effect of this restatement on the beginning net position of PERMA is as follows:

	General Liability	Workers' Compensation	Total
Net position at beginning of year, as previously reported	$ 17,045,901	$ 1,595,027	$ 18,640,928
Adjustment for net pension liability	(704,078)	(37,056)	(741,134)
Adjustment for deferred outflows of resources related to pensions	73,760	3,882	77,642
Net position at beginning of year, as restated	$ 16,415,583	$ 1,561,853	$ 17,977,436

11. CONTINGENCIES

PERMA is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of PERMA. As of June 30, 2015, PERMA is not aware of any such contingencies.

12. SUBSEQUENT EVENTS

Management has evaluated all subsequent events through October 6, 2015 which is the date these financial statements were available for issue. Events occurring after this date have not been factored into these financial statements.

CLAIMS DEVELOPMENT INFORMATION

For the Year Ended June 30, 2014

The tables that follow illustrates how PERMA's earned revenues (net of excess insurance) and investment income compared to related costs of loss and other expenses assumed by PERMA as of the end of each of the previous ten years for the liability program and workers' compensation program. The rows of the tables are defined as follows:

1. Total of each fiscal year's gross earned deposit premiums, assessments and reported investment revenue, amounts of excess insurance premiums paid, and net earned premiums (net of excess insurance) and reported investment revenue.

2. Each fiscal year's other operating costs of the program, including overhead and loss adjustment expenses not allocable to individual claims.

3. Program's gross incurred losses and allocated loss adjustment expense, losses assumed by excess insurers, and net incurred losses and loss adjustment expense (both paid and accrued) as originally reported at the end of the year in which the event that triggered coverage occurred (called policy year).

4. Cumulative net amounts paid as of the end of successive years for each policy year.

5. The latest reestimated amount of losses assumed by excess insurers each policy year.

6. Each fiscal year's net incurred losses increases or decreases as of the end of successive years. This annual reestimation results from new information received on known losses, reevaluation of existing information on known losses, and emergence of new losses not previously known.

7. Compares the latest reestimated net incurred losses amount to the amount originally established (line 3) and shows whether this latest estimate of losses is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of net incurred losses currently recognized in less mature policy years.

The columns of the table show data for successive policy years.

PUBLIC ENTITY RISK MANAGEMENT AUTHORITY

Estimated Outstanding Losses Within Member Retention
Liability Program

For the Year Ended June 30, 2015

The following schedule reflects the reported and Incurred But Not Reported (IBNR) case reserves as of June 30, 2015, as estimated by PERMA's claims manager and actuary consultant. The amount of the estimated outstanding losses reported below are limited to the member's respective self-insured retention level, to the cases which are provided coverage under PERMA's Memorandum of Liability Coverage, and to the years the member has participated in the program. The amounts below do not involve a transfer of risk, therefore, the total estimated losses should be reported as liabilities in the member's financial statements. Discounted losses are based on present-value calculations which assume a 2% interest rate.

	Undiscounted			Discounted
Member	Reserves Within Retention	IBNR Reserves	Total Member Liability	Total Member Liability
Banning	$ 23,207	$ 420	$ 23,627	$ 22,918
Barstow	235,185	50,430	285,615	275,772
Blythe	89,201	10,000	99,201	95,624
Cathedral City	87,257	179,743	267,000	256,194
Desert Hot Springs	15,789	-	15,789	15,315
Hesperia	108,407	4,543	112,950	109,563
La Mesa	89,446	31,083	120,529	116,533
Moreno Valley	288,513	206,390	494,903	478,730
Murrieta	194,634	104,754	299,388	288,335
Norco	133,096	3,146	136,242	130,706
Rancho Mirage	34,540	0	34,540	34,091
SunLine Transit	69,509	26,345	95,854	92,839
Victorville	78,669	44,546	123,215	118,928
Total	$ 1,447,453	$ 661,400	$ 2,108,853	$ 2,035,548

In addition to the estimated outstanding losses, there is also a need to recognize estimated unallocated loss adjustment expenses (ULAE). ULAE are the costs to administer open claims. Estimated outstanding ULAE are typically 5% to 10% of estimated outstanding losses.

PUBLIC ENTITY RISK MANAGEMENT AUTHORITY

Estimated Outstanding Losses Within Member Retention
Workers' Compensation Program

For the Year Ended June 30, 2015

The following schedule reflects the reported and Incurred But Not Reported (IBNR) case reserves as of June 30, 2015, as estimated by the member's claims administrator and PERMA's actuary consultant. The amount of the estimated outstanding losses reported below are limited to the member's respective self-insured retention level and to the years the member has participated in the program. The amounts below do not involve a transfer of risk, therefore, the total estimated losses should be reported as liabilities in the member's financial statements. Discounted losses are based on present-value calculations which assume a 2% interest rate.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the Public Entity Risk Management Authority's (PERMA) comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about PERMA's overall financial health.

Financial Trends

These schedules and graphs contain trend information to help the reader understand how PERMA's financial performance and well-being have changed over time. They show over the years how revenues and expenses have developed, how the net position has increased, and the history of dividends.

Demographic and Economic Information

These schedules offer demographic and economic information indicators to help the reader understand the environment within which PERMA's financial activities take place. The number of General Liability and Workers' Compensation claims is an indicator of the Provision for Claims. Payrolls for General Liability and Workers' Compensation, together with claims experience are an indicator for premium revenues.

Schedules showing trends for property tax rates and revenues along with corresponding assessed valuations are not presented since PERMA does not levy such taxes.

Schedules showing bonded debt and related legal debt ratios are also not applicable.
