Independent Auditor's Report

Board of Directors Serrano Water District Villa Park, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Serrano Water District (the District) as of and for the year June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of net pension liability (asset), the schedule of contributions to the pension plan and the schedule of changes in the total OPEB liability and related ratios, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

The District's June 30, 2023, financial statements were previously audited by other auditors whose report dated September 30, 2023, expressed an unmodified audit opinion on those

audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Management is responsible for the other information included in the Annual Report. The other information comprises the board of directors and administration but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Davis Far LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

SERRANO WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2024

This section of the Serrano Water District's annual financial report presents an analysis of the District's financial performance during the fiscal year ended June 30, 2024. This information is presented in conjunction with the audited basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2024

The District's overall net position increased by \$1,742,099 or 7.72 percent.

Total revenues increased by \$1,137,546 or 17.2 percent from \$6,612,140 to \$7,749,686.

Total expenses decreased by \$905,650 or 12.68 percent from \$7,142,212 to \$6,236,562.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of the following three parts: Management's Discussion and Analysis, Basic Financial Statements and Required Supplementary Information. The Financial Statements include notes which explain in detail some of the information included in the basic financial statements.

REQUIRED FINANCIAL STATEMENTS

The Financial Statements of the District report information utilizing the full accrual basis of accounting. The Financial Statements conform to accounting principles which are generally accepted in the United States of America. The Statements of Net Position include information on the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources and provide information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities). The Statements of Revenues, Expenses and Changes in Net Position identify the District's revenues and expenses for the fiscal years ended June 30, 2024. These statements provide information on the District's operations over the fiscal year and can be used to determine whether the District has recovered all its actual and projected costs through user fees and other charges. The third financial statement is the Statements of Cash Flows. These statements provide information on the District's cash receipts, cash payments and changes in cash resulting from operations, investments, and financing activities. From the Statements of Cash Flows, the reader can obtain comparative information on the source and use of cash and the change in the cash and cash equivalents balance for fiscal year.

FINANCIAL ANALYSIS OF THE DISTRICT

The Statements of Net Position and the Statements of Revenues, Expenses and Changes in Net Position provide an indication of the District's financial condition and indicate that the financial condition of the District improved during the last fiscal year. The District's net position reflects the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. An increase in net position over time typically indicates an improvement in financial condition.

SERRANO WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2024

STATEMENTS OF NET POSITION

A summary of the District's Statements of Net Position are presented in Table 1.

TABLE 1
Condensed Statements of Net Position

	Fiscal Year 2024	Fiscal Year 2023	Dollar Change	Percent Change
Assets:				<u> </u>
Current and other assets	\$ 9,017,073	\$ 7,955,689	\$ 1,061,384	
Capital Assets, net	19,421,067	17,858,074	1,562,993	
Total Assets	28,438,140	25,813,763	2,624,377	10.17%
Deferred Outflows of Resources	886,627	853,432	33,195	3.89%
Liabilities:				
Current Liabilities	1,777,513	1,088,529	688,984	
Long-term liabilities	2,774,651	2,620,519	154,132	
Total Liabilities	4,552,164	3,709,048	843,116	22.73%
Deferred Inflows of Resources	463,577	391,220	72,357	18.50%
Net Position				
Net investment in capital assets	19,421,067	17,858,074	1,562,993	
Restricted for Pension Benefits	324,907	200,000	124,907	
Unrestricted	4,563,052	4,508,853	54,199	
Total Net Position	\$ 24,309,026	\$ 22,566,927	\$ 1,742,099	7.72%

As the above tables indicate, total assets and deferred outflows of resources increased by \$2,657,572 during the fiscal year ended June 30, 2024. This was attributed to the District's increase in the overall capital asset position and an increase in deferred outflow activity for GASB 68&75.

Total liabilities and deferred inflows of resources increased by \$915,473 during the fiscal year ended June 30, 2024. This increase was attributed to an increase in accounts payable at year end and the impact of GASB 68&75 valuation adjustments.

SERRANO WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2024

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

TABLE 2Condensed Statements of Revenues,Expenses and Changes in Net Position

	Fiscal Year 2024	Fiscal Year 2023	Dollar Change	Percent Change
Revenues				
Operating Revenues	\$ 7,234,161	\$ 6,243,185	\$ 990,976	
Nonoperating Revenues	515,525	368,955	146,570	
Total Revenues	7,749,686	6,612,140	1,137,546	17.20%
Expenses				
Depreciation	672,047	571,557	100,490	
Other operating expenses	5,563,096	6,503,188	(940,092)	
Nonoperating expenses	1,419	67,467	(66,048)	
Total Expenses	6,236,562	7,142,212	(905,650)	-12.68%
Change in Net Position before Capital Contribution	1,513,124	(530,072)	2,043,196	
Capita Capital Contribution				
Contributed Utility Plant	228,975	6,136,387	(5,907,412)	
Beginning Net Position	22,566,927	16,960,612	5,606,315	
Ending Net Position	\$ 24,309,026	\$ 22,566,927	\$ 1,742,099	7.72%

The Statements of Revenues, Expenses and Changes in Net Position identify the various revenue and expense items which affect the change in net position. As the information in Table 2 indicates, for the fiscal year ended June 30, 2024, total revenues increased by \$1,137,546 Total expenses decreased by \$905,650 The increase in revenue was attributed to increased domestic and bulk water sales, as well as increased investment income. The decrease in expenses was attributed to the impact of GASB 68&75 valuation adjustments as well as decreased water purchases during the fiscal year.

CAPITAL ASSETS

As of June 30, 2024, the District's investment in capital assets totaled \$19,421,067. Additional information on the District's capital assets is provided in Note 4 of the notes to the financial statements.

LONG-TERM LIABILITIES

As of June 30, 2024, the District had \$2,774,651 in outstanding long-term liabilities, an increase of \$154,132 from June 30, 2023. The increase was attributed to changes in compensated absences liability and the impact of GASB 68&75 valuation adjustments. Additional information on the District's long-term liabilities is provided in Notes 5, 9, and 11 of the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board of Directors adopted the District's budget for the fiscal year ending June 30, 2025. Operating revenues are projected to be \$8,323,137 and expenses are projected at \$6,249,188 with net income from operations budgeted at \$2,073,950. Effective July 1, 2024, the District's approved water rates increased to \$5.58 per billing unit and the fixed meter rate for meters of 1' inch and smaller is \$45.23.

ADDITIONAL FINANCIAL INFORMATION

This financial report is designed to provide the District's customers, debt holders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding information included in this report or wish to request additional financial information, please contact the Serrano Water District's General Manager at 18021 E. Lincoln Street, Villa Park, CA 92861 www.serranowater.org.

NOTES TO BASIC STATEMENTS

Notes to the Basic Financial Statements

Year ended June 30, 2024

(1) Summary of Significant Accounting Policies

(a) <u>General Information</u>

Serrano Water District (the District), formerly Serrano Irrigation District, is a special governmental district of the state of California organized under the California Irrigation Law. (state Instrument dated October 1911). The District was formed on July 25, 1927. It took over Villa Park Mutual Water Company on March 31, 1964. The District's responsibility is to supply water as far as the individual water meters located within the District.

The District services an area of approximately 2,000 acres in Villa Park and Orange. The number of domestic meters in service during the year ended June 30, 2024 was approximately 2,290.

The District's sources of water are native water drawn from Santiago Reservoir (also called Irvine Lake) and three operable water wells that are temporarily unable to be utilized due to a change in state legislation. Occasionally, when available, water is drawn from the reservoir at the Villa Park Dam. The District typically pumps approximately 77% of its usage for its customers.

The District is one-half owner of the Santiago Dam and Reservoir facilities. The District holds one-fourth of the water rights in water impounded in the Santiago Reservoir under an agreement dated February 26, 1928 with the Irvine Company, which subsequently has been modified and amended on numerous occasions.

Reservoir capacity of the District for treated water is presently 9.0 million gallons.

Willard Smith Reservoir #1	3.0 Million Gallons
Willard Smith Reservoir #2	3.0 Million Gallons
Lockett Reservoir	3.0 Million Gallons

The capacity of the Walter E. Howlier Water Filtration Plant is 4 million gallons per day.

(b) <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u>

The District is accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and results of operations of a specific governmental activity. The activities of enterprise funds closely resemble those of ongoing businesses in which the purpose is to conserve and add to basic resources while

Notes to the Basic Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(b) <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

"Measurement focus" is a term used to describe which transactions are recorded within the various financial statements. "Basis of accounting" refers to when transactions are recorded regardless of the measurement focus applied. The accompanying financial statements are reported using the "economic resources measurement focus", and the "accrual basis of accounting". Under the economic measurement focus all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) associated with these activities are included on the statement of net position. The statement of revenues, expenses, and changes in net position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

(c) <u>Cash and Cash Equivalents</u>

For purposes of the statement of cash flows, the District considers all investment instruments purchased with an original maturity date of three months or less to be cash equivalents.

(d) Accounts Receivable – Water Users and General

The balance shown as a receivable represents the amount of water usage and service charges that have been earned but not yet collected at year-end. The District estimates the amounts earned, but not yet billed as of year-end and includes the estimate in this account.

(e) <u>Uncollectible Water Sales</u>

The amount of uncollectible water sales that is written off is determined by direct writeoff of individual accounts that have been outstanding for more than one year. The items are usually final bills that are not paid after the user moves from the District. Management considers the amount of uncollectible accounts to be insignificant; no allowance for uncollectible accounts is considered necessary.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(1) Summary of Significant Accounting Policies (Continued)

(f) <u>Accounts Receivable – Water Districts</u>

The District maintains water facilities at a location that is shared with another water district. Both water districts share in the maintenance expenses of the facilities. The balance shown as a receivable for water districts represents the other entity's share of the maintenance costs incurred by the District due at year-end.

(g) <u>Inventory</u>

Inventory includes water purchased in storage and is stated at the original cost using the first-in, first-out (FIFO) method. As of June 30, 2024, the District does not have any purchased in storage. The statement of revenues, expenses, and changes in net position include the purchased water costs of \$143,991 for the year ended June 30, 2024.

(h) Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. The District's policy has set the capitalization threshold for reporting capital assets at the following:

Land\$1Infrastructure\$10,000All Other Assets\$5,000

Contributed assets are recorded at acquisition value at the date of contribution. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized.

Depreciation is recorded on the straight-line basis over the estimated useful lives of the assets as follows:

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(1) Summary of Significant Accounting Policies (Continued)

(i) <u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until that time. The District has the following items that qualify for reporting in this category:

- Deferred outflow related to pension contributions subsequent to the measurement date. This amount is equal to employer contributions made after the measurement date of the net pension liability.
- Deferred outflow related to pensions for differences between actual and expected experiences, changes in assumptions and changes in proportion and differences between employer contributions and the proportionate share of contributions. These amounts are amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.
- Deferred outflow related to pensions resulting from the net difference in projected and actual earnings on investments of the pension plans fiduciary net position. This amount is amortized over five years.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District has the following items that qualify for reporting in this category:

- Deferred inflow related to pensions for differences between actual and expected experiences and changes in proportion and differences between employer contributions and the proportionate share of contributions. These amounts are amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.
- Deferred inflow related to OPEB for differences between actual and expected experiences and changes in assumptions. This amount is amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with healthcare benefits through the plans

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(1) Summary of Significant Accounting Policies (Continued)

(j) <u>Compensated Absences</u>

The total amount of accrued sick leave hours and vacation pay hours at the end of each year have been reflected in the statement of net position. To discourage excessive absences from work, the employees (excluding management) are paid for unused sick pay hours in excess of 40 hours.

(k) <u>Net Position</u>

In the statement of net position, net position is classified in the following categories:

- Net Investment in Capital Assets This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets.
- Restricted Net Position This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments.
- Unrestricted Net Position This amount is all net position that does not meet the definition of "net investment in capital assets" or "restricted net position".

The District's unrestricted net position contains the following reserves:

Capital Construction Reserve	\$ 2,063,052
Emergency and Water Purchases Reserve	 2,500,000
Total Unrestricted Net Position	\$ 4,563,052

(I) <u>Net Position Flow Assumptions</u>

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the statement of net position, a flow assumption

must be made about the order in which the resources are considered to be applied.

It is the District's practice to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(1) Summary of Significant Accounting Policies (Continued)

(m) Operating Revenues and Expenses

Operating revenues, such as charges for services (water sales) result from exchange transactions associated with the principal activity of the District. Nonoperating revenues, such as interest income and development and other nonoperating revenues, result from nonexchange transactions or ancillary activities in which the District receives value without directly giving equal value in exchange.

Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All expenses not meeting this definition are reported as nonoperating expenses.

(n) <u>Capital Contributions</u>

Capital contributions represent cash and capital asset additions contributed to the District by property owners or real estate developers desiring services that require capital expenditures or capacity commitment. The District had capital contributions totaling \$228,975 during the fiscal year ended June 30, 2024.

(o) <u>Pensions</u>

For purposes of measuring the net pension liability, and related deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the California Public Employees' Retirement System (CalPERS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(p) <u>Post-Employment Benefits Other Than Pensions (OPEB)</u>

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan and additions to/deductions from the OPEB Plans' fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the District's OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market

(2) <u>Cash and Cash Equivalents</u>

Cash and cash equivalents as of June 30, 2024, are reported in the accompanying statement of net position as follows:

Current Assets:	
Cash and cash equivalents	\$ 7,340,823
Restricted:	
Investments held by pension trust - CEPPT	324,907
Total cash and investments	\$ 7,665,730

Cash and cash equivalents as of June 30, 2024, consisted of the following:

Cash on hand	\$ 250
Deposit accounts	853,372
Investments	6,487,201
Restricted:	
Investments held by pension trust - CEPPT	 324,907
Total cash and investments	\$ 7,665,730

<u>Investments Authorized by the California Government Code and the District's</u> <u>Investment Policy</u>

Funds in excess of needs for current operating expenses are invested in various shortterm money market and investment funds. The primary goals of the District's Investment Policy are to assure compliance with all state and local laws governing the investment of funds under the control of the organization, protect the principal of investments entrusted, and generate income under the parameters of such policies.

<u>Investments Authorized by the California Government Code and the District's</u> <u>Investment Policy (Continued)</u>

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, and concentration of credit risk.

This table does not address investments of debt proceeds held by bond trustees or the investment of funds within the pension trust that are governed by the provisions of debt agreements of the District and the agreement between the District and the trustee, respectively, rather than the general provisions of the California Government Code or the District's investment policy. The District has no unspent debt proceeds on hand as of the year ended June 30, 2024.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Disclosures Relating to Interest Rate Risk (Continued)

Information about the sensitivity of the fair values of the District's cash equivalents to market interest rate fluctuations is provided by the following table that shows the distribution of the District's cash equivalents by maturity as of June 30, 2024.

Notes to the Basic Financial Statements

Year ended June 30, 2024

Total	\$	6,812,108	

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented in the following table are the minimum rating required by (where applicable) the California Government Code, the District's investment policy, and the actual Standard and Poor's credit rating as of June 30, 2024, for each cash equivalent type.

		Minimum legal		
Investment Type	 Total	rating	AAA	Not Rated

Total	\$ 6,812,108	_	3,096,918	3,715,190

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Other than external investments pools, the District had no investments that exceeded 5% of the portfolio.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(2) Cash and Cash Equivalents (Continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools or Section 115 trusts (such as LAIF, OCIP, or CEPPT).

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The entity's Treasurer may waive the collateral requirement for deposits which are fully insured up to \$250,000 by the FDIC. The collateral for deposits in federal and state-chartered banks is held in safekeeping by an authorized agent of depository recognized by the State of California Department of Banking. The collateral for deposits with savings and loan associations is generally held in safekeeping by the Federal Home Loan Bank in San Francisco, California as an agent of depository. These securities are physically held in an undivided pool for all California public agency depositors. Under Government Code Section 53655, the placement of securities by a bank or savings and loan association with an agent of depositor has the effect of perfecting the security interest in the name of the local governmental agency. Accordingly, all collateral held by California agents of depository are considered to be held for, and in the name of, the local government.

As of June 30, 2024, the District has deposits in excess of the FDIC insurance limit with certain financial institutions, totaling \$552,850.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(2) Cash and Cash Equivalents (Continued)

District Investments in State Investment Pool and County Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with state statute. The State Treasurer's Office audits the fund annually. The District is also a voluntary participant in the Orange County Investment Pool (OCIP) that is regulated by California Government Code and the Orange County Board of Supervisors under the oversight of the County of Orange Treasury Oversight Committee. The fair value of the District's investments in these pools is reported in the accompanying financial statements at amounts based upon the District's pro rata share of the fair value provided by LAIF and OCIP for each respective portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF and OCIP, which are recorded on an amortized cost basis.

Restricted Cash and Investments - Pension Trust

The District established a Section 115 trust account with CalPERS entitled CEPPT to hold assets that are legally restricted for use in administering the District's pension plan. Trust account holders can select one of two strategy options for investments. The District selected the CEPPT asset allocation Strategy 1 portfolio, which seeks to provide capital appreciation and income consistent with its strategic asset allocation. The CEPPT Strategy 1 portfolio is invested in various asset classes that are passively managed to an index. CalPERS periodically adjusts the composition of the portfolio in order to match the target allocations. Generally, equities are intended to help build the value of the portfolio over the long term while bonds are intended to help provide income and stability of principal. Also, strategies invested in a higher percentage of equities seek higher investment returns (but assume more risk) compared with strategies invested in a higher percentage of bonds. Compared with CEPPT Strategy 1 portfolio has a higher allocation to equities than bonds. The CEPPT Strategy 1 portfolio asset classes and corresponding benchmarks:

Fair Value Measurements

The District categorizes its fair value measurement within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the relative inputs used to measure the fair value of the investments. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(3) Accounts Receivable – Water Districts

The District's investments in LAIF, OCIP, money market mutual funds, and Pension Trust – CEPPT are not subject to the fair value measurement hierarchy.

The District shares expenses for jointly owned facilities with the Irvine Ranch Water District. Expenses from the maintenance and operation of Santiago Dam and Reservoir are shared, three-fourths by Irvine Ranch Water District and one-fourth by the District. The District pays expenses and then charges three-fourths of the expenses to Irvine Ranch Water District. To cover overhead, administrative and general expenses, 90% of direct labor charges are added to the bill. The amount of \$93,999 was billed to Irvine Ranch Water District for the year ended June 30, 2024. The balance due to the District from Irvine Ranch Water District as of June 30, 2024, was \$4,154.

(4) Capital Assets

Changes in capital assets for the year ended June 30, 2024, were as follows:

	Balance July 1, 2023	Additions	Deletions/ Transfers	Balance June 30, 2024

-	Total	\$	141,917	97,0	07	(101,36	<u>6</u>)	137,558	48,145	5

Compensated Absences

The District has compensated absences as discussed in Note 1J as follows as of June 30, 2024:

Vacation Pay	\$ 117,890
Sick Pay	19,668
Total	\$ 137,558

(6) <u>Water Sales in Acre Feet</u>

During the year ended June 30, 2024, 1,402 acre feet of bulk water was sold to the City of Orange for a total sales price of \$1,433,667. The Accounts Receivable – General of \$321,143, relates to the sale of water to the City of Orange as of June 30, 2024.

(7) <u>Irvine Lake/Santago Reservoir Operations</u>

Irvine Ranch Water District (IRWD) and the District co-manage the daily reservoir operations. The recreational rights at Irvine Lake are jointly owned by The Irvine Company and the District. The District is the manager of the recreational activities through a nonprofit public benefit corporation, SWD Recreation, Inc., which was formed in 1997.

During the year ended June 30, 2016, SWD Recreation, Inc. suspended operations due to the termination of this agreement and is still dormant and inactive as of June 30, 2024, and was not utilized in the agreement discussed below.

Beginning in the fiscal year ending June 30, 2019, and through June 30, 2024, the District licensed the shoreline fishing recreation rights directly to the county of Orange

Notes to the Basic Financial Statements

(7) <u>Irvine Lake/Santago Reservoir Operations (Continued)</u>

for the greater of (a) \$4,500 per month or (b) 25% of the county's net proceeds obtained from the recreational activities. For the fiscal year ended June 30, 2024, the total revenue earned related to this agreement was \$54,000, which is included in recreation income in the statement of revenues, expenses, and changes in net position.

(8) <u>Risk Management</u>

Description of the Insurance Authority

The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (Insurance Authority). The Insurance Authority is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et. seq. The purpose of the Insurance Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

Self-Insurance Programs of the Insurance Authority

At June 30, 2024, the District participated in the self-insurance programs of the Insurance Authority as follows:

Property Loss

Insured up to replacement value with deductibles ranging from \$1,000 to \$10,000 per occurrence depending on the type of equipment. The Insurance Authority is self-insured up to \$100,000 per occurrence and has purchased excess insurance coverage up to \$500 million limited to insurable value of \$20,965,723.

General, Auto, and Public Officials Liability

Total risk financing self-insurance limits of \$5 million, combined single limit at \$55 million per occurrence. The Authority purchases additional excess coverage for layers: \$55 million for general, auto, and public officials' liability, except for terrorism, communicable disease, subsidence, lead, and mold, with have limits of \$5 million, \$10 million, \$45 million, and \$45 million, respectively. These increase the limits on the insurance coverage noted above.

Public Official Bond

The Public Official Bond provides coverage in the event that the Agency's public officials fail to perform their duties faithfully and honestly. The policy offers a total coverage limit of \$100,000.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(8) <u>Risk Management (Continued)</u>

<u>Crime</u>

\$100,000 total insurance subject to a \$1,000 deductible.

Boiler and Machinery

Coverage for the replacement cost up to \$100 million per occurrence limited to insurable value, subject to a \$25,000 deductible per occurrence with the exception of turbine units and associated equipment for which the deductible is \$50,000.

Workers' Compensation

Compensation insurance up to California statutory limits for all work-related injuries/illnesses covered by California law. The Insurance Authority is self-insured to \$4 million and has purchased excess insurance to the statutory limit.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the years ended 2024 and 2022. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. There were no claims payable as of June 30, 2024

(9) <u>Pension Plans</u>

(a) <u>General Information About the Pension Plans</u>

Plan Descriptions

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Plans, cost-sharing defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 to 62 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five (5) years

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(9) <u>Pension Plans (Continued)</u>

(a) <u>General Information About the Pension Plans (Continued)</u>

of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at the fiscal year ended June 30, 2024, are summarized as follows:

	Miscellaneous				
	Prior to	On or After			
Hire Date	January 1, 2013	January 1, 2013			
Benefit Formula	2% @ 60	2% @ 62			
Benefit Vesting Schedule	5 Years of Service	5 Years of Service			
Benefit Payments	Monthly for Life	Monthly for Life			
Retirement Age Monthly Benefits, as a percent of Eligible	50 - 62	52 - 67			
Compensation	1.092% to 2.418%	1.02% to 2.5%			
Required Employee Contribution Rates	7.00%	7.75%			
Required Employer Contribution Rates:					
Normal Cost Rate	10.660%	7.680%			

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process.

The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. District contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contributions requirements are classified as plan member contributions.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(9) <u>Pension Plans (Continued)</u>

(a) <u>General Information About the Pension Plans (Continued)</u>

Contributions made by the District for the fiscal year ended June 30, 2024 were \$99,958. As of June 30, 2024, the District reported a net pension liability for its proportionate share of the net pension liability of the Plan is \$1,146,058.

(b) <u>Pension Liabilities (Assets), Pension Expense, and Deferred Outflows/Inflows of</u> <u>Resources Related to Pensions</u>

The District's net pension asset for the Plan is measured as the proportionate share of the net pension liability. The total pension liability of the Plan is measured as of June 30, 2023. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. In fiscal year June 30, 2024, the District's portion of the Plan's net pension liability represents an asset due to excess payments made in prior years.

The District's proportionate share of the net pension liability for the Plan as of the measurement date ended June 30, 2022 and 2023 was as follows:

	Miscellaneous
Proportion - June 30, 2022	0.02041%
Proportion - June 30, 2023	0.02292%
Change - Increase	0.00251%

For the year ended June 30, 2024, the District recognized pension expense of \$513,354. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to the Basic Financial Statements

Actuarial Assumptions

The total pension liability for the June 30, 2023, measurement period was determined by an actuarial valuation as of June 30, 2022, with standard update procedures used to roll forward the total pension liability to June 30, 2024. The total pension liability was based on the following assumptions:

	Miscellaneous
Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	(1)
Mortality Rate Table	(2)
Postretirement Benefit Increase	(3)

- (1) Varies by entry age and service.
- (2) The mortality table used was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details on this table, please refer to 2021 experience study report that can be found on the CalPERS website.
- (3) The lesser of contract COLA or 2.30% until Purchasing Power Protection Allowance Floor on purchasing power applies, 2.30% thereafter.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The expected real rates of return by asset class are as follows:

Investment Type	Assumed Asset Allocation	Real Return ^{1,2}
Global Equity - Cap-Weighted	30.0%	4.54%
Global Equity Non-Cap-Weighted	12.0%	3.84%
Private Equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-Backed Securities	5.0%	0.50%
Investment Grade Corporates	10.0%	1.56%
High Yield	5.0%	2.27%
Emerging Market Debt	5.0%	2.48%
Private Debt	5.0%	3.57%
Real Assets	15.0%	3.21%
Leverage	(5.0)%	(0.59)%
Total	100.0%	

¹ An expected inflation of 2.30% used for this period.

re based on the 2021 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(9) <u>Pension Plans (Continued)</u>

(c) <u>Sensitivity of the Proportionate Share of the Net Pension Liability (Asset) to</u> <u>Changes in the Discount Rate</u>

The following presents the District's proportionate share of the net pension liability (asset) for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease	Discount Rate	1%	Increase
	(5.90%)	(6.90%)	(7.90%)
Net Pension Liability	\$ 2,333,829	\$ 1,146,058	\$	168,421

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

(d) Additional Funding of the Pension Plan

In fiscal year 2021-2022, the District approved the creation of a CalPERS defined benefit pension plan trust with CalPERS (Pension Trust) to prefund the required pension contributions. The Pension Trust is legally restricted to providing benefits for members of the defined benefit pension plan. However, in accordance with GASB 68, the asset balance is not included in the calculation of the net pension asset above. For the fiscal year ended June 30, 2024, the Pension Trust had the following activity: (1) District contributions of \$100,000, investment gains of \$7,710, administrative expenses of \$175, and investment expenses of \$91. The balance in this trust is \$300,000 as of June 30, 2024.

(10) Deferred Compensation Plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The assets in the plan are held in trust for the exclusive benefit of the participants and their beneficiaries and are, therefore, not reported in the financial statements of the District.

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(11) Other Postemployment Benefits (OPEB) Plan

Plan Description

The District, through a single employer defined benefit plan, provides postemployment health care benefits. Specifically, the District provides health (medical, dental, and vision) insurance for its retired employees and directors, their dependent spouses (if married and covered on the District's plan at the time of retirement), or survivors in accordance with board resolutions. Coverage is provided for eligible retired employees who have a minimum of 20 years of service with the District and directors who have a minimum of 12 years of service with the District. The District pays 100% of the premium for the retiree and spouse. This plan was closed to new entrants as of January 1, 2008.

The District participates in the Association of California Water Agencies (ACWA) health program for its medical coverage. In general, the plans provided through ACWA are based on the experience or risk profile of the entire group of employers within a region. The following table summarizes the monthly funding rates for health coverages that are primarily applicable to current retired employees. For pre-65 medical coverage, the retiree premiums are the same as the active premiums. All premiums are monthly and are effective for the calendar year.

2023	Blue Cross PPO		Blue Cro	ss HMO
Employee Only	\$	765	\$	1,017
Employee Plus One		673		2,034

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(11) Other Postemployment Benefits (OPEB) Plan (Continued)

The contribution requirements of plan members and the District are established and may be amended by the District, District's Board of Directors, and/or the employee associations. Currently, contributions are not required from plan members. The District has not established a trust to fund future OPEB benefits and funds the plan on a payas-you-go basis.

Employees Covered

As of the June 30, 2024, measurement date, the following current and former employees were covered by the benefit terms under the plan:

Inactive Employees or Beneficiaries	
Currently Receiving Benefit Payments	7
Active Employees	3
Total	10

Total OPEB Liability

The District's total OPEB liability of \$1,699,094 was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2023.

Actuarial Assumptions and Other Inputs

The total OPEB liability as of June 30, 2023, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Notes to the Basic Financial Statements

Year ended June 30, 2024

(Continued)

(11) Other Postemployment Benefits (OPEB) Plan (Continued)

Valuation Date Measurement Date Actuarial Cost Method Actuarial Assumptions:	June 30, 2023 June 30, 2024 Entry-Age Normal Cost Method
Discount Rate	3.93%
Inflation	2.50%
Payroll Increases	2.75% per year annum, in aggregate
Long-Term Expected Rate of Return on Investments	Not applicable, since the District has not established an irrevocable trust for pre-funding the OPEB
Healthcare Cost Trend Rates	4.00% per year
Pre-retirement Turnover	Derived from the most recent CalPERS pension plan valuation
Pre-retirement Mortality	Derived from the most recent CalPERS pension plan valuation
Retirement Rates	Retirements rates under the most recent CalPERS 2.0% @ 55 rates for miscellaneous employees hired before January 1, 2013 and 2.0% @ 62 rates for miscellaneous employees hired on or after January 1, 2013

The discount rate utilized is based on whether the plan assets are projected to be sufficient to make future payments. Since there are no plan assets held in trust, the discount rate was based on a high-quality 20-year tax-exempt general obligation municipal bond yield or index rate. "High-quality" is defined as being rated AA or higher (or an equivalent rating). The municipal bond rate utilized was 3.93% and was determined using the Bond Buyer 20 Bond Index as of June 30, 2024.

Changes in Actuarial Assumptions

The discount rate increased from 3.65% for the measurement period ended June 30, 2023, to 3.93% for the measurement period ended June 30, 2024.

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the District recognized OPEB income of \$156,578. At June 30, 2024, the District reported deferred outflows of resources or deferred inflows of resources related to OPEB from the following sources:

	Deferred
	Inflows of
	Resources
Differences Between Actual and Expected Experience	\$ (101,839)
Changes in Assumptions	(64,209)
Total	\$ (166,048)

The differences between actual and expected experience and changes in assumptions are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB benefits through the plan, which is 2.7 years as of June 30, 2024. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

(Continued)

(12) <u>Subsequent Events</u>

In January 2025 the District entered into an agreement with a neighboring water district. In the agreement, the neighboring water district will provide the District with water service reliability and continue funding capital improvements to certain water infrastructure assets. In return, the District will convey ownership of certain water infrastructure and water rights to the neighboring water district. The assets conveyed are the Howiler Water Treatment Plant (HWTP), Irvine Lake, associated water rights, and untreated water conveyance facilities. The Irvine Lake and associated land improvements were previously jointly owned between the District and the neighboring district. As a part of the closing agreement, no funds were transferred with the conveyance.

NOTES TO SCHEDULE

Benefit Changes:

There were no changes in benefits.

Changes in Assumptions:

From fiscal year June 30, 2015 to June 30, 2016:

GASB 68, paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. The discount rate of 7.50% used for the June 30, 2014 measurement date was net of administrative expenses. The discount rate of 7.65% used for the June 30, 2015 measurement date is without reduction of pension plan administrative expense.

From fiscal year June 30, 2016 to June 30, 2017:

There were no changes in assumptions.

From fiscal year June 30, 2017 to June 30, 2018: The discount rate was reduced from 7.65% to 7.15%.

From fiscal year June 30, 2018 to June 30, 2019:

There were no changes in assumptions.

From fiscal year June 30, 2020 to June 30, 2022:

There were no changes in assumptions.

From fiscal year June 30, 2022 to June 30, 2023:

The discount rate and long-term rate decreased from 7.75% to 6.90% and the inflation rate decreased from 2.50% to 2.30%

From fiscal year June 30, 2023 to June 30, 2024:

There were no changes in assumptions.
